PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 2nd March 1909.

READ—

Letter No. 6992, dated the 9th January 1909, from the Revenue Commissioner in Mysore, submitting a copy of letter No. 253, dated the 21st December 1908, from the Deputy Commissioner of the Kadur District, and recommending that the shekdars of the Khandya, Avati, Aldur, Vastara and Jagara hoblis in the Chikmagalur Taluk, who are now in receipt of a semi-malnad allowance of rupee one a month, may be allowed to draw the full malnad allowance of Rs. 2 per month, as these hoblis have all the characteristics of malnad tracts.

No. R. 6813-4—L. R. 198-08-2, DATED BANGALORE, 2ND MARCH 1909.

ORDER THEREON.—In the classification of the taluks into malnad and maidan made in October 1891 for purposes of the revised khistbandi, the whole of the Chikmagalur Taluk was treated as malnad. But in Government Order No. 11906-A —Mis. F. 35-96, dated 30th April 1897, revising the District and Taluk Establishments, it has been treated as semi-malnad and an allowance of rupee one a month sanctioned to the shekdars. In view, however, of the recommendation now made and of the fact that the hoblis referred to possess all the characteristics of the malnad, Government are pleased to sanction the grant of the full malnad allowance of Rs. 2 to the shekdars of the five hoblis mentioned above.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Comptroller, Mysore Government.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The Administration Report of the Revenue Department for the year 1907-08, submitted by the Revenue Commissioner in Mysore with his letter No. C. 71, dated the 5th October 1908.

No. R. 6910-9—L. R. 140-08-4, DATED BANGALORE, 4TH MARCH 1909.

ORDER THEREON.—The report submitted by the Revenue Commissioner is comprehensive and detailed, and forms on the whole a satisfactory record of the work done during the year.

2. There is a marked improvement in the manner in which the reports of Deputy Commissioners have been drawn up, the reports for the Kolar, Tumkur and Mysore Districts deserving particular mention. The same cannot be said of the generality of the reports of Sub-Division Officers. With a few exceptions, these betray a lack either of intelligent observation of facts or of sufficient pains and interest in presenting useful information in an orderly manner. It is desirable that the Revenue Commissioner should, in a separate circular, indicate the main characteristics of each of these reports in a general way for the benefit of the officers concerned. They may be asked to inspect a few model reports in the Revenue Commissioner's Office.

3. *Jamabandi.*—Except in the Tumkur District and the greater part of the Kolar District, the Jamabandi was either commenced late or unduly prolonged. Part of the delay seems to have been due to the omission to see that the village officers prepared their accounts in proper time, and also to a number of cases of encroachment and transfer of registry having been unnecessarily kept for disposal during the time of Jamabandi. Government expect that Sub-Division Officers will so arrange their programmes that any special work which they may have to do in connection with Military manœuvres, or other similar contingencies, may not be put forward as an excuse for delay in conducting the Jamabandi.

4. *Agricultural Conditions.*—The agricultural conditions in the State were greatly affected by the unfavorable character of the seasons. The rainfall, though not below the average for the State as a whole, was neither seasonable nor evenly distributed, being excessive in the malnad and greatly deficient in most parts of the naidan. The north-east monsoon was more or less a failure and the *Vasakhi* crops suffered greatly through want of sufficient water in the tanks. The area cropped during the year fell from 60,30,485 acres in 1906-07 to 60,04,021 acres in 1907-08, in spite of an increase in the area under occupation by 61,769 acres. There was a decrease in the total outturn of all the principal crops except horse-gram and cholam. The total average outturn of ragi and paddy, the staple crops of the State, was 7·4 and 9·8 annas, respectively, as against 9·1 and 10 annas in the previous year.

5. *Cultivation.*—The total extent of assessed unoccupied land available to be taken up for cultivation at the beginning of the year was 13,33,332 acres or 18·2 per cent of the area under occupation. The extent actually taken up was 1,01,260 acres and that resigned 22,513 acres. Thus in the area taken up there was a net increase of 78,747 acres as against 53,739 in the previous year. This is explained to have been due to the impetus given to cultivation by the rise in prices and to propitious rains in the beginning of the year.

6. *Darkhasts.*—The total number of darkhasts received during the year was 13,764 and the number pending at the beginning of the year was 5,906. Of these, 13,177 were disposed of. It has not been stated, as it should have been, in how many of these cases the applications were granted. So many as 1,498, 1,547, 835 and 810 darkhasts were pending, respectively, in the Bangalore, Mysore, Hassan and Kadur Districts. 446 darkhasts were kept pending for more than three years and 532 darkhasts for over two years, the majority of these being in the Bangalore, Mysore, Hassan and Kadur Districts. The delay is discreditable to the officers responsible, whose names should be separately reported for the information and orders of Government with an analysis of the pending darkhasts and any explanation the officers may have to offer.

7. *Demand, Collection and Balance.*—The following table shows the demand, collection and balance under the heads "Land Revenue," "Mohatarfa" and "Salt."

	Net recoverable demand including previous year's arrears	Collections	Balance
	Rs.	Rs.	Rs.
Land Revenue	1,19,35,643	1,03,84,262	15,51,381
Mohatarfa	3,91,114	3,15,751	75,363
Salt	11,284	10,167	1,117

The Land Revenue demand for the year was Rs. 1,01,18,178 against Rs. 99,89,151 in the previous year, showing an increase of Rs. 1,29,027 due chiefly to the effects of the revision settlement introduced into the Channagiri Taluk and parts of the Honnali, Channapatna and Bangalore Taluks, and to the extension of cultivation by new lands having been taken up especially under the Marikanave reservoir.

The collections exceeded those of the previous year by Rs. 3,81,280. It is satisfactory to note that there has been improvement in this direction in all the districts and especially in Mysore, Hassan and Kadur Districts, in which much of the outstandings of previous years have been collected. Due discretion seems to have been exercised in the issue of coercive processes by confining them as much as possible to cases where the default was wilful or there were no other means of recovery. There was a decrease of about 10 per cent in the total number of coercive processes. The following table shows the various kinds of processes issued and the amounts recovered thereby.

	Number	Amount recovered
		Rs.
Notice of demand	64,775	9,41,058
Notice of attachment	9,599	1,47,037
Notice of sale	14,508	3,13,371
Sales held	2,123	61,785
Total ...	91,005	14,63,251

Much of the want of agreement between the Revenue and Treasury accounts referred to by the Revenue Commissioner in para 31 of his report can be avoided by careful compliance with the instructions laid down in Government Order No. R. 792-800—L. R. 525-07-2, dated 5th August 1908, and Government Order No. G. 3261-99—G. R. 10-08-8, dated 27th November 1908, regarding the proper classification of receipts and disbursements in the Treasury. His suggestions for the revision of the existing periodical revenue returns and the compilation of a good manual of taluk and district accounts, should be made the subject of a separate reference.

8. *Sayer.*—The *halat* on supari was abolished with effect from the 1st July 1907; and the levy of a small supari cess at the rate of one anna in the rupee directed in order to provide funds for a scientific study of problems connected with the production of supari. This last direction is however stated not to have been given full effect to especially in the main centres of the Supari industry, the Shimoga and Kadur Districts, and the total amount collected was only Rs. 3,095. Government

Land Revenue, dated 4th March 1909.

trust that immediate arrangements will be made, if it has not already been done, for the levy of the cess in all the districts. Dr. Coleman, the State Entomologist and Mycologist, has already commenced his investigations into the supari disease called the koleroga and has been authorised to lease small gardens in selected localities for purposes of observation and a detailed investigation.

9. *Condition of the people.*—The condition of the people, which had been injuriously affected by the deficient harvests of the preceding two years, did not improve during the year under review. The outturn of paddy and ragi was considerably below the average, and as the prices were very high, the cost of living rose considerably for all classes, and especially for the working classes as there was no rise in the wages of labour. The impetus given to mining activity by the abnormal price of manganese received a severe check during the year owing to a fall in its price and the failure of a large number of persons with little capital and no technical knowledge who had taken out prospecting licenses with the object of merely selling the blocks at a profit during the boom. The condition of the agricultural classes was somewhat better. The number of transfers of land from non-agriculturists to agriculturists showed a tendency to increase. This is satisfactory but as regards the resources of the raiyats there was considerable diminution in their grain stores as many parted with much of their surplus grain tempted thereto by the high prices prevailing throughout the year. There was also considerable decrease in their agricultural stock owing to heavy mortality among cattle. Public health was better than in the previous year, though no district was free from plague. Special attention was paid to the improvements of village sanitation and water-supply.

10. *Manufactures, Arts and Industries.*—The annual Industrial and Agricultural Exhibition held during the Dasara is expected to be of great use in promoting the agricultural and industrial development of the State. The progress made in the introduction of new manufactures and improved means of production, though not very marked, has been steady. The chief industries of the State, besides the extraction of gold and other minerals, have reference to cotton and woollen goods, jaggery and sugar, sericulture and the growth of such industrial crops as cotton, coffee and cardamoms. The total value of the manufactures in the State for 1907-08 is estimated at Rs. 1,89,81,079.

11. *Trade*—Arrangements were made during the year to collect reliable statistics about trade, and returns are being received from the Railway Companies showing the quantities carried over the Railway. The value of the exports of the principal commodities is estimated at Rs. 3,07,27,582 and the value of the imports at Rs. 3,31,84,118. This does not include the internal trade of the State itself. The Government will be glad to receive separate proposals from the Revenue Commissioner for the introduction of rice-hulling machinery with the object of lessening the exportation of paddy and the importation of rice which are stated to place the grain trade of the State at a disadvantage.

12. *Tanks.*—The Revenue Commissioner has reviewed in detail the work done in this direction. The number of major tanks inspected by Deputy Commissioners was 302; but the number inspected by Assistant Commissioners was only 199. Very few of the tanks in the interior appear to have been inspected, and the work of inspection must on the whole be characterised as unsatisfactory. The Revenue Commissioner might insist upon a programme being drawn up in each district, distributing the inspection between the Deputy Commissioners and their Assistants, so as to ensure that all the tanks in each district are inspected at least once in every three years. Two hundred and eighty-one major tanks were dealt with during the year, the outlay incurred by Government and the value of earthwork done by the raiyats being about Rs. 4,00,000 and Rs. 50,000 respectively. The total number of minor tanks restored and repaired was 402 as against 388 in the previous year, the amount spent by Government and the value of earthwork done by the raiyats being Rs. 82,640 and Rs. 95,053, respectively, as against Rs. 74,950 and Rs. 71,324 in the previous year. As usual, the largest number of minor tanks restored was in the Kolar District, while it was least in the Bangalore and Chitaldrug Districts. Government trust that the impulse which the restoration of minor tanks has received during the current year in connection with measures for the relief of distress will be taken advantage of to secure a continuous

progress in the working of the scheme. Government note with displeasure the want of interest displayed in the work by Mr. Burli Krishna Rao, acting Amildar of Tarikere, now transferred to Sagar, and Mr. Syed Yakub, Amildar of Mysore, Mr. Venkataramana Srouti, Amildar of Chamrajnagar, Mr. Sheik Abdulla, Amildar of Seringapatam and Mr. A. Krishne Urs, Amildar of Gundlupet.

13. *Loans for Land Improvement and Takavi Advances.*—The total number of applications received for loans of various kinds is stated to have been only 180 as noted in the margin. There were also 4 applications pending from the previous year. Final orders were passed in the case of 135 applications. 129 applications were granted, the amounts sanctioned being Rs. 15,890 which is less than half the total amount placed at the credit of the Deputy Commissioners (Rs. 40,000). The bulk of the loans granted was in the Tumkur District; while in the Bangalore District not a single loan was sanctioned. The old rules which interfered to some extent with the speedy disposal of applications have been recently revised, and the Deputy Commissioners and Assistant Commissioners and Amildars have been given considerable powers of sanction: and there is every reason to hope that local officers will exert themselves to induce the raiyats to take advantage of the facilities provided for obtaining loans for the cultivation and improvement of their lands, especially during the present season of distress.

Takavi advances	81
Loans for sinking irrigation wells	67
Loans for land improvement	30

The amount that had to be recovered during the year from borrowers was about Rs. 68,977 of which only Rs. 39,051 or 56 per cent of the demand was realized, which is not satisfactory. The Revenue Commissioner considers that except in the Bangalore and Chitaldrug Districts, where some attention seems to have been paid to ascertain the condition of the lands on the security of which loans have been advanced, the systematic inspection of lands is greatly neglected. The necessity for, and the importance of, these inspections should be strongly impressed on local officers.

14. *Boundary Marks.*—Government regret to note that in spite of the circular instructions of the Revenue Commissioner, very little effort was made to carry out systematic inspections of boundary marks and that even in the districts in which the test inspections prescribed under the Land Revenue Rules have been attempted, the work was entirely left to taluk officials and was not properly supervised. If the initial inspection is carefully made, subsequent inspections are not likely to involve much labour and the Revenue Commissioner should therefore arrange to have a thorough inspection of boundary marks in the State made during the next three years.

It is unsatisfactory to find that the inspection of frontier boundary marks is left to Amildars in most districts and that they are not inspected during Jamabandi as required by standing orders. The Revenue Commissioner should report the names of the officers who have shown such neglect. The explanations of the Deputy Commissioner of the Kadur District and the Assistant Commissioner in charge of the Channarayapatna Sub-Division should be obtained for the omissions referred to by the Revenue Commissioner in his report.

15. *Village Roads.*—Government have been pleased to note the great interest which has been taken in all the districts in making villagers improve the communications to their villages. The good work reported to have been done in this connection by Amildars Messrs. V. S. Rajagopalachar (Krishnarajpete Taluk) M. Krishnaswami Iyengar, (Sagar Taluk), and Machia (Chitaldrug Taluk) is commendable.

16. *Cattle Mortality.*—There was heavy mortality among cattle during the year. The number of deaths from all causes is stated to be 1,31,791 against 1,08,161 in the previous year, the deaths from diseases alone being 88,553 as against 36,574 in the previous year. The newly constituted Veterinary Department was of great use in organizing the measures necessary to check the spread of diseases. The preventive method of inoculation was introduced for the first time in the State, nearly 5,000 cattle having been inoculated; and it has become popular with the raiyats. Besides the Hospital at Bangalore, there are new Veterinary Hospitals and Dispensaries at

Land Revenue, dated 4th March 1909.

Kolar, Mysore, Hassan, Chikmagalur and Chitaldrug, and others will be opened as funds and trained men become available.

17. *Agricultural Experiments.*—Government have read with interest the account of the efforts made to interest the raiyats in agricultural improvements, chiefly by helping them to get good seed and inducing them to try new varieties of implements. The Agricultural Associations, started in most of the districts, did useful work in keeping up locally an interest in agricultural advancement. Local agricultural and cattle shows were held during the year at Chintamani, Hoskote, Saklespur and other places, more or less through purely private effort.

18. *Treasuries.*—The explanation of the Deputy Commissioners of Bangalore, Tumkur and Hassan should be submitted as to why they omitted to inspect their District Treasuries. The inspection of Taluk Treasuries by Deputy Commissioners leaves much to be desired. The Revenue Commissioner should insist upon each Deputy Commissioner inspecting every Taluk Treasury at least once during the year. Government are glad to note that the Revenue Commissioner himself inspected all the District Treasuries and twelve Taluk Treasuries.

19. *Inspection by District Officers and Sub-Division Officers.*—The tours of the Deputy Commissioners of the Bangalore, Mysore, Tumkur and Shimoga Districts have not come up to the prescribed standard. The Revenue Commissioner observes that the value of the inspections by Deputy Commissioners is greatly diminished by the omission to keep detailed notes or memoranda of matters which received their own attention and of other matters that may have to be attended to later on by their successors. The attention of Deputy Commissioners should be drawn to the clear and definite instructions contained on the subject, in Government Proceedings No. 1933—G. 34, dated the 27th May 1879.

The itineration of Sub-Divisional Officers in general, with the exception of those in charge of the Maddagiri and Kadur Sub-Divisions, was far short of the prescribed period. It was least satisfactory in the Dodballapur Sub-Division where the total number of days camped out by the three officers successively in charge, was only 28, and also called for improvement in the Bangalore, Mysore and Chitaldrug Sub-Divisions where it was 99, 95 and 90 days respectively. The Revenue Commissioner will doubtless call for the explanations of the officers concerned and see that they devote a reasonable portion of their time to inspection work in future.

20. *Village Officers, District and Taluk Establishments.*—It is noted that both Patels and Shanbhogs are endeavouring to acquire the literary qualifications necessary for the proper performance of their duties, a matter the importance of which has increased with the passing of the Village Offices Regulation. The general improvement in the quality and work of the establishments of Deputy Commissioners and the officers subordinate to them, which has resulted from enforcing the rules regulating promotion, is a matter for satisfaction; as is also the fact that out of a total of 374 Shekdars it has been possible to secure already 102 Shekdars fully qualified under the new rules and that there is a sufficient number of others capable of replacing the old Shekdars, as the latter are absorbed or retired. Government also observe with pleasure that the Revenue Commissioner is able to speak more highly of the efficiency of the Amildars as a whole than he did in the previous year's report.

Subject No. 82 of the Representative Assembly Proceedings of 1905.

Summary of discussion.—In No. 11 Patta Form, the amount paid alone is written and not the name of the party or co-sharer that pays the kandayam. As in Form No. 10 of daily Khirdi, the name of the payer also may be ordered to be entered.

Reply of Government.—There seems to be no objection. Opinions will be called for.

2. Correspondence ending with letter No. 4381, dated 27th October 1908, from the Revenue Commissioner in Mysore forwarding the opinions of the Deputy Commissioners of Districts on the above subject and stating that there is no objection to the name of the payer being entered in the Patta Form.

No. R. 7076-86—L. R. 597-05-5, DATED BANGALORE, 10th MARCH 1909.

ORDER THEREON.—The conditions under which kandayam may be received from persons other than the registered occupant are explained in Government Order No. 7740-48—R. 2602, dated 8th March 1897. In cases in which kandayam is so received from co-sharers or other persons interested in the occupancy, Government consider that there can be no objection to the insertion of the name of the person actually making the payment in the Patta (Form 11). Government are therefore pleased to direct that a new column be opened in Form No. 11 to show the name of the person who pays the kandayam. The Form will be revised accordingly as in the sample appended to this order. Where the person actually making the payment admittedly makes it on behalf of another, an entry to that effect may also be made in the new column, *e.g.*, "A or B on behalf of C".

To enable persons not in possession of Pattas making payments to have a voucher in support of payments made by them, Government are further pleased to direct that an extract from the Khirdi containing the entry relating to the payment be supplied by the Shanbhog to such person on demand and on payment of the fee prescribed for copies of the form in Government Order No. 7740-48 -R. 2602, dated 8th March 1897, if the form is supplied by the Shanbhog. A sufficient number of printed forms of such Khirdis to enable a Shanbhog to give the necessary extracts, will be supplied to each Shanbhog.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The following unofficial note dated the 27th November 1907, from the Revenue Commissioner in Mysore in Muzrai File No. 36 of 1904, relating to the concession applied for by Dasasetti of Yedatore, forwarded by the Muzrai Secretary with his memo No 3589 dated the 5th February 1908.

1. Rule 2, Appendix G, states that the grant of land is made for the express purpose of providing an establishment for keeping the building clean. It evidently does not contemplate the grant of any concession on account of charitable feeding of either Brahmins or travellers or the grant of increased extent of land in proportion to the amount of the outlay on the chattram or musafirkhana in excess of Rs. 500. I am therefore unable to support the recommendation of the Deputy Commissioner.

2. In this connection, I beg to observe that Appendix G. does not properly fall under Section 112 of the Land Revenue Regulation. Even under the old Land Revenue Rules issued with Notification No. 150, dated the 22nd July 1890, the rules of Appendix G are placed under Section 112.

3. On a careful construction of this section, I am inclined to hold that the power reserved in Government to make any modification in the assessment fixed by the Survey officer refers to the general discretion vested in Government for raising or reducing the rates of assessment and not to the right of Government to grant any land in Inam or Jodi. This will be clear from the fact that the imposition of quit-rent on Inams and their revision are regulated by the Inam Rules separately framed by Government, *vide* also Part I, Rule 18 and Part IV, Section 19 of the Inam Rules, and the fact that Government can fix under this clause of the section the assessment in regard to lands used for purposes of "agriculture alone" for a term of years not exceeding thirty Whereas the grant of lands under para 2 of Appendix G on Jodi would ensue perpetually subject to resumption as per provisions in Rule 8. Compare also the corresponding Section No 102 of the Bombay Code.

4. The grant of lands for the purposes referred to in Appendix G is made by Government in exercise of its powers of alienation for which no provision of Land Revenue Code would seem to be necessary (*vide* the definition of the word "alienated" in Section 3 of the Land Revenue Regulation). The form of the Sannad prescribed in Appendix G is also open to the objection that while the wording of Rule 12 would seem to include generally the ground given for the construction of the Chattram as well as the land granted as Jodi and a note to the Schedule in the Sannad refers to the grant of the land free of assessment or subject to the payment of Jodi, the words of the body of the Sannad would seem to apply only to the former, *viz*, the ground granted for the construction of the chattram.

No. R. 7141—L. R. 385-07-5, DATED BANGALORE, 11TH MARCH 1909.

ORDER THEREON.—It is clear that the rules in Appendix G cannot be held to have been made under Section 112 of the Land Revenue Code. Section 233 (*n*) of the said Code empowers Government to make rules not inconsistent with the Code for the guidance of all persons in cases not expressly provided for therein and Government have, in their Order No. R. 7615—L. R. 268-06-3, dated the 19th February 1907, held that Section 233 (*n*) of the Land Revenue Code empowers Government to make a rule like Rule 44 of the Land Revenue Rules. The provisions of Appendices E, F, G, H and I are of a similar nature and ought to be deemed to have been made under Section 233 (*n*) of the Land Revenue Code. The proviso to Section 112 of the Code which refers to grants of lands for coffee and cinchona cultivation and for the planting of forest and fuel trees does not confer any new power on the Government but merely saves from extinction a power which it already possesses and is not therefore an authority for these rules. All that is now necessary to do is to remove the reference to Section 112 of the Land Revenue Code from the headings of these rules. A notification to this effect will be issued.

Revenue (Land Revenue), dated 11th March 1909.

2. The form of the Sannad prescribed under Appendix G does not require any alteration. Small variations may be necessary in view of the circumstances of each particular case; for instance the words "the piece of land" occurring in the preamble may have to be replaced by the word "lands" where more lands than one are given and the wording may be suitably modified in such cases.

The following letter No. D. 913, dated the 12th February 1909, from the Revenue Commissioner in Mysore:—

Adverting to Government Order No. R. 4332-70—Agri. 105-08-1, dated the 4th January 1909, laying down instructions *re* remission and suspension of assessment, I have the honor to submit for the information of Government copy of letter No. 510, dated the 8th February 1909, from the Deputy Commissioner of Bangalore and that of my reply thereto, and to solicit instructions as regards his proposal that the concession should be extended to areas where the crop realized did not exceed four annas. In this connection it may be observed that while in the Government Order of 4th January 1909, as well as in Government Order No. D. 298, dated the 2nd April 1892, the remission of half wet assessment was restricted to cases in which the lands could not be cultivated or being cultivated yielded no crop, owing to the tank having received either no supply of water or an insufficient supply, remission of half wet assessment was sanctioned in the case of lands which yielded a four-anna crop and under in the Kolar District under Government Order No. R. 10878-87, dated 19th February 1906. Further, at the conference held in my office on the 8th December last, the general view of the Deputy Commissioners was that remission of half wet assessment may be extended to lands yielding a four-anna crop or less (*vide* para 5 of the Notes of the meeting).

As regards the Deputy Commissioner's suggestion in para 3 that the remission or suspension of land revenue should be extended to localities where the wet or dry crops did not exceed four annas, though not included in the affected area, I am inclined to hold that where the yield of both dry and wet crops did not exceed the four-anna limit, the remission of half wet assessment may be allowed and that suspension of dry assessment might be left to the discretion of Deputy Commissioners according to the circumstances of individual villages.

As the question is one of general importance and applicable throughout the State and other Deputy Commissioners may perhaps raise similar questions, I have thought it desirable to submit the matter for the orders of Government.

Letter No. R. C. 510, dated the 8th February 1909, from the Deputy Commissioner, Bangalore District, to the Revenue Commissioner in Mysore.

Adverting to para 6 of Government Proceedings No. R. 4332-70—Agri. 105-08-1, dated the 4th January 1909, *in re* remission of half wet assessment and suspension of half dry assessment during the current year, I have the honour to state that it is stated therein that remission of half wet assessment is to be allowed in the case of wet lands under *tanks* which have not received any water-supply, or the crops on which have withered from insufficient water-supply, and suspension of half dry assessment allowed in cases of *total* failure. With regard to the above, I request to be enlightened on the following points:—

1. Whether only cases of total failure are to enjoy the concession of suspension of half dry assessment or it may be extended to areas that have yielded a four-anna crop or less?

2. Whether remission of half wet assessment is granted in cases only where crops have withered from insufficient water-supply or where there has been a poor crop, say four annas or below?

3. Whether both the concessions are to be confined to only affected tracts declared as such or any locality in the district where the circumstances warranting the grant of remission or suspension exist?

4 In declaring a tract as affected, the condition of dry crops alone has been considered, while wet crops as a whole have failed throughout the district. It is but fair that the concession of remission of half wet assessment should be freely allowed in all cases where the outturn is four annas and less, and irrespective of the locality lying in affected tracts or outside I believe that this principle was adopted in granting remissions of half wet assessment in the Kolar District in 1905-06, while the failure appertained only to wet crops; now that the dry crops have also failed and wide spread distress prevails, it seems all the more necessary that the above criterion should be adopted in the case of dry lands also. In the meantime I beg to enclose for your information copy of a circular order issued by me to the Amildars and Divisional Officers regarding the procedure to be followed in giving effect to the order of Government regarding the suspension and remission of assessment and I request to be informed whether the instructions contained therein require any modification.

5 Very early orders are solicited as it is desirable that the raiyats concerned should be informed of the exact amount due by them, before the commencement of the khista.

Letter No. D. 912, dated the 12th February 1909, from the Revenue Commissioner in Mysore, to the Deputy Commissioner, Bangalore District.

With reference to his letter No. 510, dated the 8th instant, requesting to be enlightened on certain points regarding the remission of half wet assessment and suspension of half dry assessment sanctioned in Government Order No. R. 4332-70—Agri. 105-08-1, dated the 4th January 1909, has the honor to note below the undersigned's replies to the questions raised by the Deputy Commissioner.

i Whether only cases of total failure are to enjoy the concession of suspension of half dry assessment or it may be extended to areas that have yielded a four-anna crop or less	The words in the Government Order are clear and apply only to cases of total failure.
ii. Whether remission of half wet assessment is granted. . . ....four-anna crop or less	Do Do The attention of the Deputy Commissioner is also invited to Government Order No. D. 298, dated 2nd April 1892.
iii. Whether both concessions are to be confined to only affected tracts declared as such or any locality in the district where the circumstances warranting the grant of remission or suspension exist	The wording would apply to any locality; though the condition of total failure would necessarily indicate an affected tract.

2. Regarding para 4 of his letter about remission of half wet assessment and suspension of half dry assessment being granted also to areas which have yielded a four-anna crop or less, the Deputy Commissioner is informed that the Government have been addressed in the matter and their orders should be awaited

The following letter No. D. 1102, dated the 17th February 1909, from the Revenue Commissioner in Mysore :—

I have the honor to submit herewith for the orders of Government copy of letter No. 500, dated 11th February 1909, from the Deputy Commissioner, Chitaldrug District, reporting that it has been found necessary to modify Rule XXVIII of the revised rules for the grant of takavi advances and land improvement loans so as to admit of advances, granted to agriculturists for subsistence under clause (B) (iv) of para I of the same rules, being disbursed in a lump sum instead of in instalments, and to state that under the following peculiar conditions now prevailing, *viz.*, (1) the very high prices of food grains even in this harvest season, (2) the severe summer we are entering in, (3) the indifferent state of crops in several parts of British India, (4) the probability of prices rising still higher within the next one or two months, (5) the wisdom of enabling raiyats in need to purchase now a few months' supply, I think that the rule may be relaxed for a period of four months at present and loans under this head not exceeding Rs. 50 may, at the discretion of the Deputy Commissioners, be allowed to be disbursed in a lump. I may also state that as our raiyats are fairly solvent and provident there is little fear of Government running risk or of the raiyats themselves wasting the funds and ultimately suffering from starvation when the distress deepens.

Letter No. 500, dated 11th February 1909, from the Deputy Commissioner, Chitaldrug District, to the Revenue Commissioner in Mysore.

I have the honor to state that in Rule XXVIII of the revised Land Improvement Rules recently issued, it is laid down that loans for subsistence granted for the relief of distress should be disbursed monthly or once in two months. When I visited the worst portions of the Hosdurga Taluk yesterday, the raiyats represented to me that the subsistence loans granted to them should be paid in one lump sum and not in driblets to enable them to purchase food grains sold at 11 and 12 seers per rupee at once, this being the season when raiyats generally bring to the weekly markets grain in large quantities to meet the Government dues, etc. They fear that the prices are likely to go up after a month hence, if early rains fail. As their representation is reasonable and as the amounts of loan granted to them range from Rs. 15 to Rs. 50, I have in anticipation of your kind approval directed the Amildars to issue cheques for the full amount of the loans sanctioned by me and request that Government may kindly be moved to modify the rule accordingly.

No. R. 6982-90—AGRI. 91-08-7, DATED BANGALORE, 8TH MARCH 1909.

ORDER THEREON.—Government observe that the circumstances and conditions under which advances to agriculturists for subsistence should be given, and the stage at which their grant on a large scale is justifiable are still under consideration, and the opinion of the Revenue Commissioner has been called for thereon. The experience gained in parts of the Tumkur District in regard to the results of granting gratuitous relief, as far as it has been possible for Government to observe them, has not been satisfactory, and Government fear that the grant of subsistence allowances on a large scale may lead to similar undesirable consequences, besides encouraging habits of unthriftiness if the advance is given as a lump sum. Under the circumstances, therefore, they are of opinion that the rules framed under Section 10 of the Land Improvement Loans Regulation and Section 194 of the Land Revenue Code should be strictly observed, and that subsistence grants should not be advanced in a lump sum, but should be made only in conformity with the mode prescribed therein.

Correspondence ending with letter No. D. 1124, dated the 22nd February 1909, from the Revenue Commissioner in Mysore, on the subject of granting relief to weavers in unaffected tracts.

No. R. 7087-96—Agri. 62-08-23, dated Bangalore, 11th March 1909.

Order thereon.—The Revenue Commissioner reports that a general fall in the demand for cloth has produced some distress among weavers in unaffected tracts, and he therefore proposes that the Deputy Commissioners of Districts may be authorized to give them relief, when necessary, on the lines indicated in Sections 216-224 of the Famine Code.

2. The Government cannot give a general sanction to the grant of relief in unaffected tracts. It is only where distress is wide-spread and severe that the intervention of Government is required. If, therefore, the Revenue Commissioner finds that owing to the peculiar circumstances of any locality such relief is really required in any locality, he may submit each such case to Government separately for orders with full details and with his own recommendation.

Referring to your letter No. R. 5825—Agri. 106-08-3, dated the 6th instant, I am directed to state that if the Civil work falls off, the Chief Court will offer no objection to the temporary investiture with criminal powers of those Civil Judges who have spare time on their hands.

I am to add that at present monthly statements are submitted to the Chief Court only by Civil Courts, Sessions Judges and District Magistrates. Statements of other Criminal Courts go to the District Magistrates. These have been asked to forward consolidated statements to the Chief Court and the statements called for in your letter will be sent when the figures are available.

Correspondence ending with letter No. 4274, dated the 19th January 1909, from the Registrar of the Chief Court of Mysore on the subject of placing the services of Munsiffs and Sub-Judges at the disposal of the Deputy Commissioners of Districts.

No. R. 7116-26—AGRI. 106-08-6, DATED BANGALORE, 11TH MARCH 1909.

ORDER THEREON.—As during the next few months the duties of the District Revenue Officers are likely to increase heavily in the affected tracts and as Amildars and Assistant Commissioners are likely to have to do a good deal of travelling in connection with the measures for the relief of distress, Government are pleased to direct that the services of Munsiffs and Sub-Judges should be placed at the disposal of the Deputy Commissioners of Districts, where necessary, during the ensuing annual recess of the Civil Courts. The Deputy Commissioners will utilize the services of these officers in the best manner possible.

2. To enable Government to make the necessary arrangements with the Chief Court, the Revenue Commissioner is requested to intimate to Government on or before the 1st April the names of the Judicial officers who may be required for duty in connection with the present distress.

Government Proceedings No. R. 4332-70—Agri. 105-08-1, dated the 4th January 1909, directing that, until the next cultivation season, advances to agriculturists for subsistence should be given only in exceptional cases.

READ—

Correspondence ending with letter No. D. 788, dated the 5th February 1909, from the Revenue Commissioner in Mysore on the subject of granting subsistence allowances on a large scale at the present stage.

No. R. 7354-63—AGRI. 143-08-4, DATED BANGALORE, 16TH MARCH 1909.

ORDER THEREON.—The attitude of Government with regard to the grant of subsistence allowances is laid down in their order read above. Government consider it inexpedient on principle to make subsistence advances on an extensive scale at the earlier stages of the present distress when the majority of the raiyats are not likely to have exhausted their means of livelihood and work is freely available. Government accordingly directed that until the next cultivation season, this form of relief should be allowed only in exceptional cases in which the men seeking the advances have come to the end of their resources and cannot be made to go on works on account of age, sex, infirmity, or social position.

2. Two conditions are thus imposed on the grant of subsistence advances, (1) want of other means of livelihood and (2) inability to go on works for one or other of the reasons already mentioned. The Revenue Commissioner represents that these conditions require some relaxation in their application as they are likely, if rigorously insisted upon, to cause hardship in some cases by delaying relief until persons are driven to the last verge of destitution.

3. Government observe, however, that their instructions in the matter do not prohibit the grant of subsistence allowances in all reasonable cases. It is not necessary that an agriculturist should have sold all his property and exhausted his credit before he can be considered to have come to the end of his resources. It is enough if he does not possess a stock of grain, other than seed grain, and cannot, without recourse to borrowing at a high rate of interest, replenish his stock. As thus understood, the rules would not prevent relief from being afforded in the case put by the Revenue Commissioner of an agriculturist who, on account of successive bad seasons and consequent depletion of his stock of food grains, is unable to maintain himself, and has therefore to sell his holding, his cattle and his agricultural implements should relief be withheld from him.

4. The Government are not prepared to sanction the Revenue Commissioner's proposal to dispense with the second condition mentioned above, *viz.*, inability to go on works on account of age, sex, infirmity, or social position. The condition is necessary in order to indicate that this form of relief is of an exceptional nature, meant only for such persons as cannot go on works, which is the general form of relief. Further, while strictly excluding all cases not entitled to the benefit of this measure, it makes adequate provision for all possible cases which may stand in need of relief. It thus serves as a useful guide in the proper working of the system.

5. During the next cultivation season, it is possible that some extention of this measure may be required, but Government trust, that for the present, Deputy Commissioners will give effect to the instructions of Government.

Correspondence ending with letter No. 4736, dated the 26th February 1909, from the Inspector-General of Police in Mysore, describing the measures of precaution adopted by him against a possible increase of crime in the State on account of the unfavourable character of the seasons, and submitting proposals for strengthening the existing Police Force.

No. R. 7389-401—AGRI. 157-08-4, DATED BANGALORE, 18TH MARCH 1909.

ORDER THEREON.—The arrangements made by the Inspector-General of Police for the proper enforcement of the night watch system in villages; patrol of roads, cart tracks, jungle tracts, and foot-paths; proper watch over the migration of people and the influx of suspicious gangs; and the escort of grain carts to shandies are satisfactory.

2. The Government are glad to note that there has been no increase of crime against property, and that the District Police Officers are fully alive to the necessities of the present situation. But the Government are of opinion that the time has not yet arrived for strengthening the Police Force by entertaining fresh hands in the Department. Much has been done in recent years to strengthen the village and Ghaut Police and the existing regular Police Force is probably somewhat in excess of ordinary requirements. Further Government are of opinion that by utilizing the services of the Barr Sepoys of the Mysore Infantry on such purely mechanical duties as watching stations, lock-ups, etc., a considerable number of Policemen would be set free for purposes of other work. Under these circumstances it is unnecessary to sanction the additional Police Establishment proposed by the Inspector-General of Police. He may renew his proposals later on if the distress deepens into Famine.

3. The Inspector-General of Police may in the meanwhile submit proposals if he considers necessary, in consultation with the Inspector-General of Prisons and the Chief Commandant, in the matter of making use of Barr Sepoys as indicated above.

No. R. 7421-3—AGRI. 62-08-27, DATED BANGALORE, 18TH MARCH 1909.

ORDER THEREON.—The Government observe from the letter of the Deputy Commissioner, that the house was rented with effect from the 1st December 1908, the servants entertained, one from the 18th November 1908 and the other from the 7th December 1908, and the clerk appointed from the 1st December 1908. But it was not till the 23rd January 1909 that the matter was reported to the Revenue Commissioner. The Deputy Commissioner should have obtained the previous sanction of Government, or if the matter was urgent and he had therefore to anticipate the sanction of Government, he should at least have reported his action to the Revenue Commissioner, without delay. Under the circumstances, however, Government are pleased to sanction the proposals of the Deputy Commissioner, with effect from the dates from which the house was rented and the servants and the clerk were entertained. The total expenditure involved is Rs. 64 per mensem and it will be met out of the funds allotted to the Bangalore City for the relief of weavers.

The following letter No. D. 1521, dated the 10th March 1909, from the Revenue Commissioner in Mysore :—

I have the honor to submit herewith for the information of Government, copy of letter No. 639, dated 2nd March 1909, from the Deputy Commissioner, Tumkur District, requesting instructions in the matter of remissions and suspensions of Land Revenue demand sanctioned in Government Proceedings No. R. 4332-70—Agri. 105-08-1, dated 4th January 1909. The question raised by the Deputy Commissioner in para 2 of his letter has been met by the orders of Government since issued in their Proceedings No. R. 6859 67—Agri. 175-08-2, dated 3rd March 1909, approving of my reply to the Deputy Commissioner, Bangalore District, in connection with the same subject and communicating the order to the Deputy Commissioners of other Districts for information. The question raised in para 3 of the Deputy Commissioner's letter regarding Bagayet lands on which rice is habitually grown, is one for the consideration and orders of Government.

Letter No. 639, dated 2nd March 1909, from the Deputy Commissioner, Tumkur District, to the Revenue Commissioner in Mysore.

Referring to para 6 of the Government Proceedings No. R. 4332-70—Agri. 105-08-1, dated 4th January 1909, relating to the remissions and suspensions of Land Revenue during the current year on account of distress, I have the honor to submit the following facts for consideration and request clear instructions.

2. As regards remission, it is ordered that it is only with regard to wet lands below tanks which have not received any water-supply or the crops on which have withered away from insufficient water-supply that half the wet assessment can be remitted. In the year 1905-06 when the remissions of half the wet assessment on rice lands below tanks were sanctioned owing to drought (*vide* Government Proceedings No. R. 14084-5—Agri. 101-05-32, dated 1st May 1906), such remission was allowed on all lands below tanks classed as "rice" which, owing to the absence or failure of water-supply in the tanks, either actually lay waste during both the seasons (Kartika and Vaisakha) of the year or yielded a crop of four annas and under in both these seasons. In my opinion, the same rule would be desirable now also. A less than four anna crop, wet or dry, would scarcely pay the holder's cost of seed and labour, and holders of land with this yield are worse off than the holders of Banjar lands who did not incur that cost.

3. Instructions are also required as to whether the orders of Government as contained in their Proceedings No. R. 12971-9—Agri. 22-05-45, dated 6th April 1906, in the matter of granting remissions on lands classed as Bagayet but on which only rice is habitually grown should not also apply now.

No. R. 7506-15—AGRI. 175-08-4, DATED BANGALORE, 20TH MARCH 1909.

ORDER THEREON.—The Government are pleased to direct that where lands classed as Bagayet are habitually used for growing paddy, half the wet assessment imposed thereon may be remitted, as in the case of wet lands under tanks, if the crops on them have failed totally. The other half shall be collected as usual.

2. The concession will apply only in the case of lands situated in the affected tracts.

The following letter No. D. 1414, dated the 3rd March 1909, from the Revenue Commissioner in Mysore :—

With reference to Government Proceedings No. R. 6122-31—Agri. 97-08-8, dated 13th February 1909, I have the honor to submit herewith copy of letter No. R. C. 556, dated 24th February 1909, from the Deputy Commissioner, Bangalore District, requesting sanction for the appointment of an accountant on Rs. 40 for the District Office, seven accountants on Rs. 25, one each for the marginally noted taluks and nineteen Assistant Shekdars on Rs. 15 plus 10 each, for nineteen of the affected hoblis.

1. Bangalore ... ...
2. Hoskote ... ...
3. Devanhalli ... ...
4. Dodballapur ... ...
5. Nelamangala ... ...
6. Magadi ... ...
7. Channapatna ... ...

2. I think that an accountant on Rs. 40 is very essential for the Deputy Commissioner's office, as a sum of Rs. 85,450 has been already allotted to the district under the various heads of relief and there is enough additional work for one such hand and I recommend that this may be sanctioned.

3. With regard to the accountants for the taluks, it will be seen from the figures of areas and population as shown below that the Nelamangala and Magadi Taluks are the least affected. It seems sufficient therefore to sanction for the present five accountants on Rs. 25 each for the first five taluks :—

Name of taluk	Number of villages affected	Area in square miles	Population
1. Dodballapur	97	96·4	28,151
2. Hoskote	63	77·25	16,041
3. Channapatna	54	92·65	29,948
4. Devanhalli	50	34·8	18,960
5. Bangalore	42	40	10,824
6. Magadi	22	24·52	5,879
7. Nelamangala	21	21·6	5,761

4. Regarding the Assistant Shekdars, as the number of affected villages is not large in most of the hoblis, I think that, instead of the nineteen Assistant Shekdars requested by the Deputy Commissioner, sanction may be accorded to nine Assistant Shekdars for the present, to be distributed by the Deputy Commissioner among the various taluks where additional work is heavy, pending further application showing the need in the remaining hoblis.

5. I solicit very early orders of Government.

Letter No. R. C. 556, dated 24th February 1909, from the Deputy Commissioner, Bangalore District, to the Revenue Commissioner in Mysore :—

With reference to Government Proceedings No. R. 6122-31—Agri. 97-08-8, dated the 13th February 1909, sanctioning additional establishment for certain districts on account of the present distress, I have the honor to state that, as it was decided at the Conference of the 7th December that additional establishment for work in connection with distress was quite necessary and provision for the same was made in the rough estimate submitted subsequently with this office No. R. C. 414, dated the 20th December 1908, no separate requisition for this establishment was sent up. The enormous increase of work both in the District and Taluk Offices in connection with the prevailing distress which extends over seven taluks of this district may well be gauged from the number of circular instructions issued from time to time from your office apart from information directly called for from the taluks. The volume of statistics required and the number of returns to be prepared and submitted is daily increasing. To cope efficiently with the work, it is essential that the extra establishment as settled at the Conference should be entertained early. But, for the present, I request that, at least, one accountant on Rs. 40 for the District Office may kindly be sanctioned as well as the immediate entertainment of the hand.

The Sub-Division Assistant Commissioners who are merely engaged in tours, being entrusted only with the work of takavi and other advances under the New Land Improvement Loans Regulation, the work in their offices has not materially increased so as to demand the services of a separate full-time official for work in connection with the present distress.

Revenue (Agriculture), dated 20th March 1909.

2. As ordered in sub-paras 2 and 3 of para 4 of the Government Order, the entertainment of one accountant on Rs. 25 for each of the marginally noted affected taluks* and an Assistant Shekdar on Rs. 15 plus 10 for each of the marginally noted‡ hoblis therein may be kindly sanctioned.

3. As already directed in your No. 6665-70, dated 4—5th January 1909, the official candidates who returned from the last session in the training school will be deputed for this work in hoblis and the men to be entertained on Rs. 15 plus 10 put in charge of the regular revenue work of hoblis as Shekdars.

4. I solicit the favor of early sanction being obtained to the entertainment of the hands above referred to.

No. R. 7521-3—AGRI. 97-08-14, DATED BANGALORE, 20TH MARCH 1909.

ORDER THEREON.—The Government observe that the distress prevailing in the Bangalore District is confined to a small tract and does not therefore require the elaborate establishment applied for by the Deputy Commissioner and recommended with certain modifications by the Revenue Commissioner.

2. A clerk on Rs. 25 per mensem has recently been sanctioned for the Bangalore District Office and the need for an accountant on Rs. 40 cannot therefore be pressing. The amounts spent on the various measures of relief are as yet so little that no separate establishment for accounting is necessary in the Taluk Offices. It is possible, however, that some Assistant Shekdars may be required for duty in the most affected hoblis, and Government have no objection to the Revenue Commissioner authorising the temporary entertainment of not more than 9 (the number mentioned by him) where necessary and reporting the matter to Government for formal sanction.

The following letter No. D. 1542. dated the 12th March 1909, from the Revenue Commissioner in Mysore :—

I have the honor to state that, with the object of getting first hand information on the condition of the market at the several outlying stations in the State during the present distress, I issued a Circular No. D. 441-8, dated the 18—19th January 1909 (copy herein enclosed for information), requesting the Deputy Commissioners of Districts to arrange for the submission of returns of all the weekly 'Santes,' giving prices of the three important food grains, *viz.*, rice, (2nd sort), ragi and jola and of cattle and fodder and any information of a noteworthy feature. In pursuance of the above circular, the returns are being received in appreciable numbers only from the 3rd and 4th weeks of February 1909.

2. Most of the returns being prepared by minor revenue officials, any special information contained therein may not deserve to be implicitly relied upon. Yet, I think that such remarks are useful as warnings (requiring verification) of the state of affairs in the interior in a rough and general way.

3. For the week ending the 27th February 1909, returns from 127 'Sante stations have been received from all parts of the State.

4. These returns, as they are received, are checked every day and important points worthy of notice are tabulated and referred to the Deputy Commissioners of Districts for necessary action or explanation. I herein enclose one such tabulated form.

5. My object is mainly to watch carefully the condition of the markets in all parts of the State, and I trust my action will be approved by Government.

NO. R. 7618-21—AGRI. 140-08-5, DATED BANGALORE, 24TH MARCH 1909.

ORDER THEREON.—The Government observe that a large amount of earth-work at an estimated cost of Rs. 56,000 has to be done in connection with the restoration of the Nidsale Tank. The project is thus well suited for affording employment on a large scale to unskilled labourers and Government approve of the work being undertaken in connection with the relief of distress existing at present. It is reported, however, that there is no immediate necessity for starting such large works in the Tumkur District on account of the large number of village works in progress in the district. The Revenue Commissioner and the Deputy Commissioner are requested to watch the conditions of the district carefully and to report to Government as soon as necessity for opening the work is felt, when funds will be sanctioned for the purpose.

The following letter No. D. 1497, dated the 8th March 1909, from the Revenue Commissioner in Mysore :—

I have the honor to submit herewith for the orders of Government copy of letter No. 298, dated the 24th February 1909, from the Deputy Commissioner, Chitaldrug District, requesting an additional allotment of Rs. 6,500 for sinking drinking water wells. The Deputy Commissioner says that the restriction contained in Government Proceedings No. R. 5971-80—Agri. 69-08-42, dated the 10th February 1909, necessitating the spending of allotments under this head mostly on *kutcha* or temporary wells cannot be strictly adhered to in the Chitaldrug District owing to the hard and rocky nature of the soil. The Deputy Commissioner, therefore, solicits the grant of an additional sum of Rs. 6,500. The total allotment made to the districts for sinking drinking water wells amounts to Rs. 88,785 and excluding the sum of Rs. 1,000 reserved for repairing hondas, etc., the balance available for distribution is only Rs 10,215. As the Deputy Commissioner's application refers to the sinking of pakka and costly wells which is opposed to the spirit of Government orders on the subject and the balance at my disposal is also small and insufficient to meet the future requirements of other districts, I request the favor of your obtaining early orders of Government in the matter.

The point for orders is whether Government would sanction a separate allotment for *pakka* wells under consideration or allow me to relax the spirit of the Government order above referred to by sanctioning funds for *pakka* wells also from the existing allotment for *kutcha* wells, in which case further grant under this head will be necessary.

NO. R. 7759-68—AGRI. 69-08-65, DATED BANGALORE, 27TH MARCH 1909.

ORDER THEREON.—Government consider that the amount allotted for the construction of drinking water wells should be solely utilized for digging wells in places where there is actual scarcity for drinking water during the present season. It is not desirable, therefore, to undertake wells of a costly description in places where they are not immediately wanted, out of these funds. But, in exceptional cases, in which owing to the loose nature of the soil or on account of the depth to which it is necessary to dig before water can be found it is necessary to build up the sides to prevent the well from collapsing, there is no objection to this being done.

2. In selecting sites for wells, other things being equal, preference may be given to such wells as may be converted later on, if necessary, into wells of a permanent character

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 27th March 1909.

READ—

Letter No. D. 1549, dated the 12th March 1909, from the Revenue Commissioner in Mysore, submitting copy of letter No. 524, dated the 20th Febraary 1909, from the Deputy Commissioner of the Chitaldrug District, on the subject of the additional funds required for land improvement loans and takavi advances in his district.

No. R. 7780-9—Agri. 38-08-32, dated Bangalore, 27th March 1909.

Order thereon.—The Government observe that out of the total sum of Rs. 2,40,750 sanctioned for land improvement loans and takavi advances, a sum of Rs. 48,550 has been allotted to the Chitaldrug District. The Deputy Commissioner estimates his further requirements in this direction at Rs. 90,000 till the end of the current official year. The Revenue Commissioner has made a further allotment of Rs. 15,000 and submits the matter to Government for information.

2. On a comparison of the amounts sanctioned in the Chitaldrug District with those sanctioned in some of the other districts, where distress is at least as acute, the Government are constrained to think that these loans are granted on a rather lavish scale in the Chitaldrug District without strict regard to the necessities of the situation, the manifold calls on Government for funds, and the limited extent of the amount that could be made available for this particular purpose. The Revenue Commissioner is requested to draw the attention of the Deputy Commissioner to the observations contained in Government Proceedings No. R. 6369-78—Agri 38-08-27, dated the 17th February 1909, as to the policy to be adopted in the grant of these loans. Government trust that, in future, in applying for additional funds, Deputy Commissioners will see that their proposals are based on a careful consideration of the actual needs of the affected tracts and the urgency for the expenditure.

3. It is noted from the Deputy Commissioner's letter that the total amount of loans already sanctioned in his district is much in excess of the allotments assigned to the district. It will be pointed out to the Deputy Commissioner that this is irregular and that before sanctioning loans the officers granting them should see that the grants allotted to them are sufficient for the instalments of the loan which have to be paid during the current year.

Government Proceedings No. R. 4343-51—Agri. 12-07-6, dated the 15th January 1908, aying down certain instructions regarding the preparation of statements of standard rates of produce of different crops in the State and of the forecasts of the more important ones.

2. Correspondence ending with letter No. 8258, dated the 12th February 1909, from he Revenue Commissioner in Mysore, submitting for approval the following circular containng subsidiary instructions to Deputy Commissioners on the subject in accordance with para 8 f the Government order read above :—

Circular.

With reference to Government Order No. R. 4343-51—Agri. 12-07-6, dated the 15th January 1908, laying down certain instructions for the determination of standard rates of produce of different crops in the several taluks and districts of the State and for the preparation of periodical forecasts of important crops, the following subsidiary instructions are issued for the guidance of the officers concerned :—

(1) By " Standard rate of produce " is understood the normal crop or out-turn per acre, *i.e.*, the quantity of any grain or other substance that is usually harvested on an acre cultivated with that grain, or in other words, what " past experience has shown to be the most generally recurring crop in a series of years, the crop which the cultivator has a right (as it were) to expect and with which he is (or should be) content, while if he gets more he has reason to rejoice and if less he has reason to complain." For instance in the estimated out-turn published in Part II in the Mysore Season and Crop Report for 1906-07, the following is represented as the standard out-turn per acre for the Bangalore Taluk as fixed in 1897 :—

Paddy	...	...	...	4 candies.
Ragi	...	...	...	3 candies.

(2) Standard rates of produce should be ascertained and recorded for each of the marginally noted crops in every taluk where they are usually grown. Though within a particular taluk, there may be different rates of produce obtaining in different localities, still it is not deemed either necessary or expedient to take account of smaller units of area for purposes of standardization. In such a case, the standard for the taluk will be arrived at by the Amildar by ascertaining from local enquiries the normal rates of produce in a sufficiently large number of typical cases spread over the several hoblis in the taluk and striking a numerical average thereof.

1. Paddy
2 Ragi.
3 Cholam.
4 Horse gram.
5 Bengal gram.
6 Til.
7 Sugar cane.
8. Cotton.
9 Wheat.

(3) The standards will be expressed in pallas of 100 seers (by the standard seer of 80 tolas adopted in the statement of fortnightly prices) for paddy, ragi, cholam, horse gram, Bengal gram and til; in maunds of 40 seers of 24 tolas each (of jaggory) for sugar-cane; and in maunds of 40 seers of 24 tolas each (of uncleaned cotton) for cotton.

(4) The standards of out-turn already fixed for paddy, ragi, horse gram, cholam and sugar-cane under Government Order No. R. 7866-74, dated the 10th March 1897, should now be verified and revised wherever necessary.

(5) In order to arrive at the district average out of the standards fixed for the taluks, the number representing each taluk standard will be multiplied by the number of acres in the *average area* under the crop in the taluk, and the product for all the taluks in the district added and divided by the number of acres in the *average area* under such cultivation in the whole district. The *average area* for this purpose may be calculated from the figures for the past five years, for which it is presumed that materials will be readily available. An average for the whole State will be calculated on the same principle from the district averages.

(6) Each of the Deputy Commissioners is accordingly requested to report, not later than 1st August next, the standard average rate of produce for each crop,

determined as above for his district, and the average area under the crop in the district together with talukwar figures for each crop in the following form :—

Name of Taluk	Standard rate of produce	Average area under the crop
1	2	3

(7) The figures representing the standard rates of produce in each taluk and the district averages as well as the average for the whole State must be expressed in whole numbers, fractions greater than half being reckoned as unity, and those equal to or below half being omitted

(8) Besides the special forecasts of cotton and wheat that have already been prescribed and are now being periodically submitted to Government, arrangements will hereafter be made by Deputy Commissioners for the preparation and submission of a preliminary forecast for each of the three marginally noted crops after the first pahani which will be made before the crops are harvested and also of a final estimate of out-turn after harvest of the same crops.

1. Paddy.
2 Ragi.
3. Sugar-cane.

(9) Both the preliminary forecast and the final estimate of out-turn should be drawn up in the form prescribed in Government Order No. R. 4343-51—Agri. 12-07-6, dated the 15th January 1908, except that the estimated out-turn need not be expressed in tons, cwts. or lbs. as required in the notes appended to the form, it being sufficient if the out-turn is shown in pallas or maunds as the case may be.

(10) The preliminary forecasts of all the three crops will be annually submitted by Deputy Commissioners not later than the first of November. The final estimates of out-turn may, in the case of paddy and ragi, be submitted before the 1st of March and in the case of sugar-cane before the end of May.

(11) In the preparation of figures for preliminary forecasts the subordinate revenue officers inspecting the standing crops should be clearly made to understand that the estimate of out-turn should be made after taking into consideration the actual state of the crop at the time of inspection and supposing that seasonal and other conditions would thereafter be normal to the harvest.

(12) The first set of forecasts newly prescribed above will be submitted on or before the 1st of November 1909.

No. R. 7825-33—Agri. 125-08-5, dated Bangalore, 31st March 1909.

Order thereon.—The instructions proposed to be issued by the Revenue Commissioner are suitable and are approved.

NOTIFICATION.

No. R. 7375—Ft. 164-04-9, dated 17th March 1909.

THE MALNAD RAIYATS' SPECIAL PRIVILEGES RULES.

In supersession of the Rules published in Notification No. 6084—Ft. F. 105-95 dated 8th January 1896, the Government of His Highness the Maharaja of Mysore are pleased to make the following rules under Sections 34 and 35 of the Mysore Forest Regulation (XI of 1900), defining the privileges of raiyats in the "Malnad" in regard to the use of forest produce from Village and District Forests and lands assigned at the survey settlement as free grazing grounds.

1. These Rules shall apply to taluks and parts of taluks specified as "Malnad" in the Appendix, and the privileges granted hereby to the raiyats will be exercised by them within the limits of Village Forests, wherever specifically assigned, and when Village Forests have not been so assigned, within the limits of District Forests or such portions thereof as may be set apart for the purpose. Provided, however that these Rules shall not apply to Coffee Planters.

2. These Rules shall not affect any existing privilege of grazing in District Forests, nor will they affect existing rights of owners of gardens in their Soppina-bettas, or rights in the Kans in the Malnad. But nothing herein contained will prevent a District Forest from being placed under special protection under the provisions of Section 35 (iii) of the Forest Regulation, XI of 1900.

3. "Agricultural implements" mean and include ploughs, harrows, clod-crushers, hoes, seed-drills, mamti-handles, gudli or pick-axe handles and all other agricultural implements.

Definitions

"Malnad" means the taluks and parts of taluks mentioned in the Appendix.

"Raiyat" means a pattadar, khatedar, or registered occupant of Government land or minor Inamdar, and includes the co-holder or tenant of all the above descriptions of land-holders.

4. Raiyats shall not fell, lop or otherwise damage under these Rules any tree bearing minor forest produce, such as Cinnamon (*Cinnamomum iners*), Tamarind (*Tamarindus indica*), Gallnut (*Terminalia Chebula*), Kachu (*Acacia catechu*), Geru

(*Semicarpus anacardium*), Gamboji (*Garcinia morella*), Antavala (*Sapindus trifoliatus*), and Halmaddi (*Canarium strictum*); nor any of the reserved trees mentioned in the subjoined table, which will be entirely at the disposal of the Forest Department.

12	*Artocarpus Lakucha* ...	Vate.

GROUP III.

"Jungle wood" consisting of species not included in Groups I and II above.

8. Subject to Rules 1 and 4, raiyats in the Malnad will be entitled to remove from District Forests the following forest produce without payment or permit:—

(1) Jungle-wood for agricultural implements. But, wood of group II may be taken for this purpose with the written permission of the patel. Only mature and knotted trees unfit for timber should be cut. When jungle-wood is wanted for sugar cane mills, paddy husking mills and troughs for cattle, free permits should be obtained from the Amildar, and these should be returned to the taluk within the time specified with the endorsement of the patel of the village in which the wood has been cut as to the quantity removed under the permit; except in the magnis noted on the margin where no permits are required.

(2) Jungle-wood, stakes, brushwood and bamboo thorns for fences and hedges and dams and for fuel.

Forest, dated 17th March 1909.

(3) Jungle-wood, and bamboos including vate or reed bamboos required for cattle pens, for sheds, pandals, small huts and "Machans" to be put up in fields and for stack floors;

(4) Branches of jungle-wood trees for manure and litter;

(5) Grass for thatching or fodder;

(6) Thorny bamboos for hedges and fences;

(7) Dead date, or bagani palm trees required for agricultural implements, sugar-cane hedges and water-courses, and canes for agricultural purposes; and

(8) Dead wood of all kinds other than these referred to in Rule 4 may be removed as firewood.

NOTE.—In addition to the above, the raiyats may also cut and remove grass *gratis* from the State Forests with the permission of the District Forest Officer.

9. Raiyats in the Malnad can obtain wood and bamboos for building and agricultural purposes on licenses which will be issued on payment of favorable rates of seigniorage as hereunder mentioned. Provided, however, that the wood or bamboos thus obtained shall be used for the construction and repairs of their farm buildings and dwelling houses in the village to which the forest is attached or has been assigned, and that no license will be issued for felling wood or bamboos in Malnad "Kans."

Hebbidarus, per 100	2	0	0

N. B.—Sawn timber will be charged for 50 per cent. in addition.

NOTE.—The term "cart-load" shall mean a country cart drawn by two bullocks or buffaloes. The rate for a cart-load drawn by four bullocks or buffaloes to be double that for a cart drawn by two bullocks or buffaloes, and so on for every additional pair of bullocks or buffaloes employed in dragging the cart.

10. The concessions accorded to raiyats in Rules 8 and 9 are intended solely for their own *bona fide* use. They shall not transfer, sell or barter for purposes of trade, any materials obtained under the aforesaid rules. Provided, however, that the license and materials obtained under these rules may be transferred to any member of the license holder's family or to any Malnad raiyat.

11. The Deputy Commissioner may appoint, by notification in the *Mysore Gazette*, any person or class of persons, by name or by virtue of his office, to issue or recover paid permits under the foregoing rules, and may also prescribe tannas or places to which the timber or other forest produce shall be brought for the examination of such timber or other forest produce, the checking or the recovery of permits, and the issue of way permits. Except as provided in Rule 8, permits must be obtained before any felling, conversion, collection or removal is commenced. Permit-holders must comply with the regulations of the Forest Department and the conditions entered in the permit.

12. Free permits prescribed in Rule 8 will be liable to inspection by Forest, Revenue and Police Officers, who will be bound to see that the terms of the license are not exceeded or broken.

13. Any breach or infringement of Rules 4, 5, 6, 8, 9 and 10 will render the offender liable to imprisonment of either description as defined in the Indian Penal Code, which may extend to one month, or to fine which may extend to Rs. 200, or to both in addition to the withdrawal of the privileges conceded to him by the foregoing rules.

Correspondence ending with letter No. 127, dated the 3rd September 1908, from the Deputy Commissioner, Mysore District, on the subject of fostering the growth of sandal trees in occupied lands in the Mysore State.

No. R. 7699-708—FT. 13-05-17, DATED BANGALORE, 25TH MARCH 1909.

ORDER THEREON.—The Government of His Highness the Maharaja have for some time past been considering how far it is practicable to give land-holders an interest in the protection of sandal trees growing on their land, and, again to afford reasonable facilities for the removal of such of them as interfere with the agricultural or other legitimate use of their holdings, with a view to enlisting the willing co-operation of the raiyats in the propagation and conservancy of this most valuable product.

2. The present position of the land-holder with reference to sandal wood trees is briefly as follows. All sandal trees standing in private holdings are the property of Government, and the land-holder is responsible for their preservation. In case of any injury to such trees, he is bound to report the fact to the nearest Revenue Officer and is liable to pay compensation to Government, unless he can prove that the injury was not due to his own act or negligence. Further, he cannot claim to have any tree removed on the ground that it obstructs the lawful use of his land, while the officer of Government who has to deal with such cases has no clear rules to guide him. This system, while it imposes on the land-holder irksome responsibilities compensated by no prospect of ultimate profit, offers a convenient opening for the gratification of private malice and has other undesirable results.

3. The evils of the system have formed the subject of frequent representations in the Representative Assembly and, for many years past, have been a matter of solicitude to successive administrations. In 1872 Col. Van Someren, Conservator of Forests, proposed to provide an inducement to the raiyat to take care of the trees on his land by paying him a commission of 15 per cent of the value of trees removed from his holding at the instance of Government. In 1875 Sir Richard Meade, then Chief Commissioner of Mysore, notified that, with a view to encourage the conservation of sandal trees on occupied lands, a percentage of the value of all such trees felled on their lands would be allotted to the occupants in certain proportions ranging from 5 to 15 per cent, depending on the length of time that the land had been in the possession of the occupant when the tree was felled. This notification was to come into force on the 1st April 1876, but the framing of rules intended to give effect to the safeguards then considered essential offered so much practical difficulty that the scheme was abandoned. The scheme provided that the land-holder's percentage should be calculated and paid at the forest depot after the actual value of the tree, the number of years during which the land-holder had been in possession of the land and other particulars had been ascertained. This involved the preparation and maintenance of a voluminous record and the adoption of numerous precautions against fraud and it was decided that the burden of work thus entailed was not one which could be imposed on the subordinate revenue and village agencies.

4. Since 1875 the subject has now and again come under consideration without any satisfactory conclusion being reached. The Government of His Highness however consider that the practical difficulties attendant on the scheme should not be permitted to stand permanently in the way of a measure, the desirability of which has so long been recognised. The subject has therefore been again taken up for consideration and during the last year, the opinions of the Revenue Commissioner, the Deputy Commissioners of districts and of certain other official and non-official gentlemen have been obtained. The question has been thoroughly discussed in all its aspects and the opinion elicited, which is almost unanimous, is that it would be both a gracious concession and good policy to give the raiyat a share in

the profits derived by Government from trees growing on his holding and to afford him facilities for the removal of such sandal trees as are obstacles to the legitimate use of the land.

5. In either case it is necessary to estimate the value of the tree removed and Government consider that the method adopted for this purpose should be as simple as possible. They propose therefore to exclude all consideration as to the length of time during which the raiyat has been in possession of the land. They believe that in the girth of a tree is to be found a fair and simple measure of its value and that, if the trees are separated into a few well—defined classes according to their girth, it will be possible to estimate the amount payable with a reasonable degree of accuracy. Government are therefore pleased to direct that the girth of a sandal tree be taken as the basis for the computation of the bonus.

6. As this concession is intended partly to serve as an incentive to the raiyats to pay greater attention in the future than they have done in the past to the sandal trees on their lands, Government consider that it would be sufficient to adopt somewhat lower rates during the next ten years and to bring the full rates into force after the expiration of that period. They are therefore pleased to direct that amounts calculated according to the rates fixed in the following scale be paid to occupants from whose lands sandal trees are removed. This scale is only for mature trees:—

Class	Girth of tree at 4 ft. above ground level	Bonus payable	
		First 10 years	Afterwards
	Inches	Rs. a. p.	Rs. a. p.
I	Below 12	0 8 0	0 8 0
II	12 to 21	1 8 0	1 8 0
III	21 to 30	3 8 0	4 8 0
IV	30 to 36	4 0 0	7 8 0
V	Above 36	5 0 0	10 0 0

Note.—A mature tree is one which is showing signs of decay. This is indicated by the following external symptoms:—

(*a*) dead main branches and leading shoot,
(*b*) decay of bark, and
(*c*) pale color and diminutive size of the leaves.

A further and infallible test is that the heart-wood must not be at a lower depth than one inch from the surface.

7. If a tree dies before attaining maturity, and the District Forest Officer is satisfied that the premature death of the tree was due solely to natural causes, such as lightning or spike disease, over which the occupant had no control, or which he could not have prevented, payment will be made at the same rates as those prescribed above for mature trees, but the girth of the dead tree will be measured with the white wood removed. On trees which have been destroyed by fire no bonus will be paid.

8. Separate rules as in the appendix to this order will be issued regarding the procedure to be followed in connection with the removal of mature trees and the payment of bonuses thereon.

9. While recognising the desirability of affording facilities for the removal of trees that interfere with the legitimate use of holdings, Government are bound to consider the fact that the removal of immature trees causes appreciable loss of revenue. It is therefore only fair that reasonable compensation should be levied from raiyats requiring such removal, and this is the practice in the adjoining Province of Coorg. The rates of compensation in force there vary from Rs. 3-2-0 for a tree of 3 " in girth to Rs. 25 for a tree of 48", and it is also provided that the

Forest, dated 25th March 1909.

marketable value, if any, of the tree when removed should be ascertained and deducted from the fine payable. The Government of His Highness are however of opinion that the end to be kept in view is not the securing of a full revenue but the discouragement of unnecessary applications, and that this can be attained by means of a simpler rule of compensation. They are accordingly pleased to direct that when it is proved that the removal of a tree is necessary for the legitimate enjoyment of any land, it shall be competent to the District Forest Officer to permit the removal of such tree on payment by the occupant of compensation fixed according to the following scale :—

Class	Girth at 4 ft. above ground level	Amount of compensation payable to Govt. by the occupant	Class	Girth at 4 ft. above ground level	Amount of compensation payable to Govt. by the occupant
	Inches	Rs. a. p.		Inches	Rs. a. p.
I ...	Below 12	1 0 0	III ...	24 to 30	4 0 0
II ...	12 to 24	2 0 0	IV ...	Above 30	6 0 0

The claim for compensation may, however, be waived in cases of hardship at the discretion of the District Forest Officer, when the amount to be remitted is not more than Rs. 10 in regard to the same survey number. When the amount exceeds Rs. 10 but does not exceed Rs. 50, the Conservator of Forests may similarly waive the claim for compensation at his discretion. When the amount proposed to be remitted exceeds Rs. 50, the case shall be reported for the orders of the Government.

No compensation will be levied on mature trees or on trees not exceeding 4" in girth. Bonuses will be paid on mature trees removed by desire of the occupant at the rates mentioned in paragraph 6 above.

It should be noted that the rules in this paragraph apply only to the removal, within a reasonable limit, of trees interfering with the legitimate use of any land, and not where the removal of trees on a large scale is asked for.

10. Government are aware that the measures now adopted do not cover the whole ground and that certain disabilities can only be removed if the raiyat is further relieved of the burden of proving his own innocence in the case of damage to sandal trees standing on his land. In view of the fiscal and economic importance of the tree, Government do not feel justified in taking such a step. They trust however, that these concessions will mitigate to a substantial degree the rigour of the monopoly and encourage land-holders to co-operate with Government in the propagation and preservation of sandal trees in the State..

NOTIFICATION.

No. 7709—Ft. 13-05-18, dated 25th March 1909.

Under Section 76 of the Mysore Forest Regulation (XI of 1900), the Government of His Highness the Maharaja are pleased to issue the following rules regarding the removal of sandal trees from occupied lands and the payment of bonuses to the occupants thereof :—

(1) No land owner shall have the right to insist that a sandal tree standing on his land be removed on the ground that it has grown to maturity or on any other ground than that of obstruction to cultivation or to object to the removal of any tree by the Forest Department in the course of its ordinary operations. The selection of the trees to be removed shall rest entirely with the officers of the Forest Department and those acting under their orders.

(2) Every mature sandal tree intended for removal in occupied lands shall be marked by the Range Officer with a hammer bearing the monogram S. F. (S standing for sandal and F for fell) just above the root stock after removing the outer bark and white wood. It will also have a serial number stamped on it corresponding with that contained in a register to be maintained by the Range Officer showing all the trees marked by him. This register will be maintained, according to Form C, appended hereto, and a monthly extract therefrom will be sent to the District Forest Officer.

(3) The Range Officer will then prepare a receipt in Form A, appended hereto, and give a credit note on the nearest Taluk Treasury showing the amount of bonus payable to the occupant. The receipt will contain the signature of the occupant both in the counterfoil and the duplicate and will be attested by the Patel and Shanbhog. The counterfoil will be sent to the Amildar simultaneously with the issue of the credit note and will be passed on by the Amildar to the District Forest Officer after the credit note is cashed with the fact of payment endorsed thereon. The District Forest Officer after the necessary check will return it to the Range Officer to be filed as a voucher.

(4) After the credit note is issued, the tree will be uprooted and roughly dressed, leaving a ring at the point where the measurement was taken and sent to the Koti intact accompanied by the usual Passport (*vide* Form No. 55 of the Forest Code). In the "Remark" column of the form, the Range Officer will note the girth measurement of the tree, the survey number of the field and the name of the owner.

(5) The Koti Ranger or Forester, on receipt of the tree, will check the measurement and submit to the District Forest Officer a list of trees received during the month, on the first of the ensuing month in Form B appended hereto.

(6) The District Forest Officer will compare and check the Koti list with the entries in the Ranger's register and vouchers. If they agree, he will file them; but if any discrepancies are noticed, he will take immediate steps to trace and reconcile the same.

(7) The District Forest Officer during the course of his tours, will check at least 15 per cent of uprooted trees by actually measuring the trees at the Koti and inspecting the localities from where they were uprooted and submit a certificate to that effect to the Conservator.

(8) In all cases where an occupant of land wishes to have any sandal tree growing on his holding removed, on the ground that it interferes with the legitimate use of his land, he shall make an application in that behalf to the Amildar. The Amildar on receipt of such application shall furnish the applicant with a written acknowledgment of the application and, after causing the necessary enquiry to be made, will forward the application with his own opinion to the District Forest Officer. The District Forest Officer after such further enquiry as he may deem necessary and on being satisfied that the ground is valid will order the removal of the tree on payment of any compensation which may be prescribed in that behalf. The District Forest Officer's opinion as to the necessity for the removal of the tree will be final.

(9) If the applicant does not receive any answer within three months from the date of the acknowledgment received by him, permission shall be deemed to have been granted to him for the removal of the tree and he shall become entitled to all the benefits which he could have claimed according to the orders of Government if the tree had been removed by the Forest Department.

NOTIFICATION.

No. R. 7710—L. R. 319-08-1, dated Bangalore, 25th March 1909.

After Rule 41 of the Land Revenue Rules, the following rule will be added :—

1. *Rule 41 A.*—Lands containing sandal trees when granted for occupation shall always be sold by auction and the upset price to be levied shall be calculated so as to include the present value of the bonus which the applicant might become entitled to receive by virtue of his ownership of the land for the sandal trees thereon under the orders of Government for the time being in force in this behalf.

2. Before any land containing a large number of sandal trees is granted for cultivation, the Forest Department shall be consulted and if there is a thick growth of sandal trees on the whole survey number, such number shall be reserved for Government. If there is a growth only in a portion of the survey number and the remaining portion does not contain many trees, such remaining portion may be granted for cultivation after being formed into a separate survey number, provided the extent does not fall below the minimum for the tract. In special cases where it is possible to mark off the portion containing sandal trees and reserve it, such portion even if below the prescribed minimum, may, with the sanction of the Revenue Commissioner, be sub-divided and reserved to Government, the remaining portion of the survey number being alone granted for cultivation with a proportionate reduction of assessment.

Proceedings of the Government of His Highness the Maharaja of Mysore,

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 4 of 1908-09.

Appellant Gopalaiya. *Vs.* Respondent Magadi Rayappa.

Subject.

Appeal against the order of the Revenue Commissioner in Mysore, directing, in reversal of the order of the Deputy Commissioner, Bangalore District, the registry of the shanbhogi barawardship of Dodmudgere firka, being made in the name of the respondent in preference to that of the appellant.

Facts of the case.

One Rangappa was the registered shanbhog of the above firka consisting of the villages of Dodmudgere, Chikmudgere, Mallasandra and Baganigere including Baganigere Amrut Mahal Kaval. The records show that, from the year 1879, when Rangappa was unable to perform the duties of the office himself owing to old age and defective sight, his 3rd son Lingappaiya was looking after the work of Baganigere village and the 4th son Magadi Rayappa, the respondent, that of the other three villages though no formal orders had been passed in the matter, but solely on the responsibility of the barawardar Rangappa. This continued till the year 1886, when Lingappaiya and Magadi Rayappa were formally appointed as gumastas of Rangappa. In 1887, however, a division of the shanbhogi huk having been effected by a private agreement among the father and the four sons, Rangappa applied for the registry of (1) Baganigere village being made in the name of his 3rd son Lingappaiya, subject to the performance of the duties thereof by his eldest son, the appellant, (2) Mallasandra village in the name of his 2nd son Ramanna, (3) Chikmudgere in that of his last son Magadi Rayappa and (4) Dodmudgere village in his own name, the respondent, however, being allowed to do the work of that village as his gumasta. On the Amildar's recommendation, the then Deputy Commissioner, Col. Macintire, directed, on the 1st March 1887, issue of orders to give effect to the arrangement, provided there was no other takrar for so doing. On the strength of the above order, the villages appear to have been severally registered in the names of the three sons and the father respectively. In 1890 Rangappa died and the respondent continued to discharge the work of Dodmudgere village though the registry continued to remain in the name of the deceased Rangappa. Lingappaiya barawardar of Baganigere village died in 1900 and the appellant Gopalaiya continued to perform the duties of that village. In December 1902, however, Rangaiya son of Lingappaiya applied for the registry of Baganigere village being transferred to his name and objected to Gopalaiya doing the work. About the same time all the three brothers Gopalaiya, Rayappa and Ramanna and also Rangaiya applied severally for the registry of Dodmudgere village being made in their names, Rangappa in whose name it then stood being dead. The appellant in January 1903 bought over Rangaiya's huk in respect of Baganigere village for Rs. 145 by a duly registered deed and Rangaiya himself, in his deposition before the Amildar dated 28th July 1903, withdrew his takrar and agreed to the registry of Baganigere village being made in the appellant's name. The Assistant Commissioner thereupon directed in October 1903 the registry of Baganigere village in the name of the appellant and that of Dodmudgere in the name of the respondent on the ground that the latter had been discharging the duties of Dodmudgere village from the year 1879. On appeal by Gopalaiya, the Deputy Commissioner Mr. H. H. Sparkes held that the order of Col. Macintire of 21st March 1887 could only be a temporary one as it would otherwise mean the splitting up of the firka and accordingly ordered on 21st August 1906, that the appellant being the eldest son of the original hukdar should be registred as barawardar of the entire firka. On second appeal preferred by the respondent, the Revenue Commissioner has reversed the order of the Deputy Commissioner and has directed the registry of the barawardship of the entire firka being made in the name of the respondent, on the grounds that mere primogeniture should not prevail over rights and claims created by agreement and conduct of

Revenue (Miscellaneous), dated 8th March 1909.

parties and that the respondent, being the officiating shanbhog of two villages which form a preponderating share of the firka in question, was entitled to registry of the entire firka in his name. He has further ordered that Baganigere and Mallasandra villages may continue to be in the possession of the persons who officiate as shanbhogs and that this arrangement may continue tentatively till the next Revision Settlement or revision of firkas or till any suitable vacancies occur. Hence the present appeal to Government by Gopaliah.

Decision.

All the four villages referred to above form only one shanbhogi firka as constituted at the Survey Settlement of 1879-80 and the potgi of the whole firka as per revised Potgi Settlement is only Rs. 100. The registry of the baraward of these villages separately in the names of four different persons practically amounted to the splitting up of a duly constituted firka and was opposed to the Potgi Rules and the standing orders of Government. The partition of the firka as a family arrangement between the father and his sons so as to conflict with the Potgi Rules should not have been countenanced and given effect to by the local Revenue Authorities. Government have deprecated on several occasions this tendency on the part of Revenue Officers. The splitting up of a firka should not be ordered except with the sanction of Government when such a course is deemed necessary for administrative convenience or other reasons. In the present case there could be but one registered shanbhog for the entire firka and the question is who is best entitled to be so registered.

In dividing the villages among the sons, Chikmudgere fell to the share of the respondent and the father Rangappa kept Dodmudgere to himself but allowed the respondent to act as his gumasta, an arrangement which was challenged by the other brothers on the death of the father, with the result that in 1903, the registry of the baraward of Dodmudgere was ordered to be made in the respondent's name. The appellant was not however agreeable to this change. Even according to the family arrangement the respondent had only one village, *viz.*, Chikmudgere in his own right. The mere fact of his having acted for considerable time as his father's gumasta for Dodmudgere cannot give him a preferential title to the office of the said village when it became permanently vacant as his possession as gumasta cannot be treated as adverse to his elder brother the appellant. The Revenue Commissioner's view that the respondent had a preponderating share in the firka cannot therefore be upheld. In reversal of the order appealed against, Government direct that the baraward of the entire firka be registered in the name of the appellant who will however be allowed to perform the duties of only Dodmudgere and Baganigere villages. As the appellant himself is agreeable to the continuance of the present arrangements for the work of the other two villages and as considerable hardship might be caused by upsetting an arrangement long in force as per mutual agreement of parties, Government direct, as a special case, that the existing arrangements for the work of Mallasandra and Chikmudgere villages continue undisturbed.

Appeal allowed.

Appeal No. 6 of 1908-09.

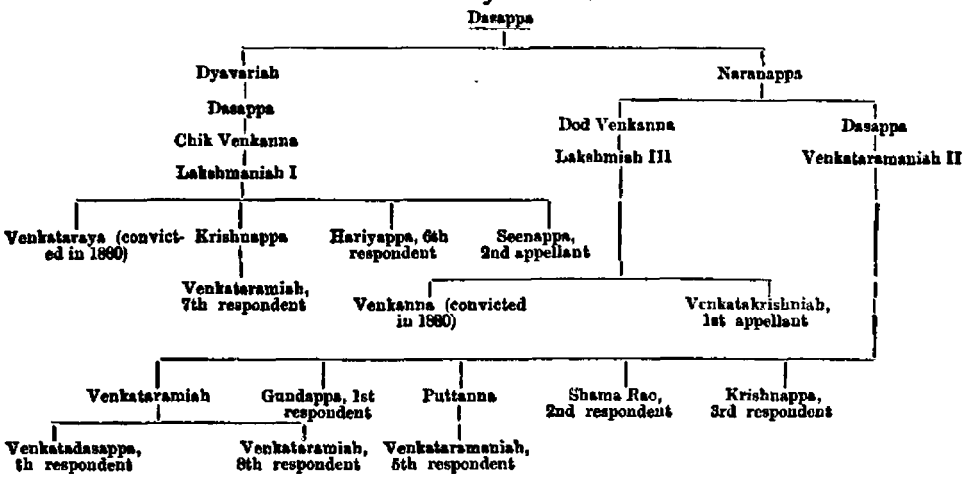
	8. Venkataramiah, brother of Venkatadasappa, (4th respondent).	

Subject.

Appeal against the order of the Revenue Commissioner in Mysore, rejecting as time barred the claim of the 1st appellant Venkatakrishniah to a share in the shanbhogi office of Nittur and ten other villages of the Gubbi Taluk and directing that the arrangement that existed in 1895 should continue until the next revision settlement.

Facts of the case.



The parties are the descendents of a common ancestor Dasappa and are related to each other as shown above. According to the register of 1864, the eleven villages in question were registered in the names of three persons as detailed in the margin. Lakshmiah was however the officiating shanbhog of all the villages till his death in 1878-79 when his eldest son Venkanna succeeded him but the latter is said to have had been in charge of only some of the villages. This Venkanna and one Venkataraya (eldest son of Lakshmaniah I) who was officiating for Nittur village were both convicted in 1880 for embezzlement of Government money and dismissed the service. The Deputy Commissioner accordingly ordered a redistribution of the villages in July 1880 as shown in the margin. Ramiah was succeeded by his son Venkatakrishniah who was however convicted in 1886 for criminal breach of trust and removed from service. Nittur Amanikere was thereupon registered in the name of Venkatadasappa (4th respondent). In 1890, when Hariyappa resigned his office, the five

villages wh___ tood in his name were registered in the name of his younger brother Seenappa (2nd appellant). On the death of Puttanna in 1895 the baraward of all the five villages of which Puttanna was only a joint hukdar with Gundappa, appears to have been registered exclusively in the name of Venkataramaniah (5th respondent), minor son of Puttanna, Gundappa being his guardian.

2. Thus in 1895, the several villages were in the baraward of three persons as per margin, though they had been constituted into four shanbhogi charges at the Potgi Settlement of 1886-87, as shown below :—

Nittur Amanikere	Venkatadasappa (4th respondent)

3. On the 16th December 1895, Venkatakrishniah (1st appellant) brought a suit in the Assistant Commissioner's Court for a declaration of his right to ¼ share in the shanbhogi huk of all the eleven villages and for being put in possession of as many villages as would yield ¼ of the total Potgi. The 1st defendant admitted the claim but the other defendants contested the suit mainly on the grounds that the suit was barred by limitation and that the plaintiff's family forfeited the huk in 1880 when his elder brother Venkanna was convicted of embezzlement.

The Assistant Commissioner* decreed the claim but left the question of putting plaintiff in charge of a specific number of villages being decided at the execution of the decree.

*Mr. M. Seshadri Iyengar

On appeal, the Deputy Commissioner† affirmed the decree but did not give immediate relief, by refusing to disturb the then existing arrangement by a transfer of the duties of any of the villages to plaintiff until the occurrence of a vacancy. Against the above decree both parties appealed to Government who in their decision No. 3143-50—P. F. 33 of 98, dated the 2nd November 1898, held that Venkatakrishniah's suit was not barred by limitation and directed that, as the eleven villages in question had been formed into four firkas at the Potgi Settlement and as the then grouping of the villages indiscriminately into three charges was opposed to Potgi rules, a redistribution should be made and the smallest firka conferred on Venkatakrishniah. The Deputy Commissioner thereupon made the marginally noted distribution, against which Gundappa complained to Government but was informed on the 18th March 1901, that as he was not a party to the suit, his claims could not be considered at that stage and that he might institute a regular suit if he so desired.

4. Gundappa accordingly filed a suit in 1901-02. Both the Assistant Commissioner Mr. Paramasiva Iyer and the Deputy Commissioner Mr. M. S. Narayan Rao dismissed the suit declining to re-open the question of limitation. On second appeal by Gundappa, Government reversed the orders of both the lower Courts and remanded the case for fresh enquiry on merits with the observation that, as Gundappa was not a party in his own capacity in the original suit filed by Venkatakrishniah in 1895, the finding in that suit was not binding on him. Accordingly the case was tried *de novo* bringing on record Shama Rao and Krishnappa (2nd and 3rd respondents) as additional plaintiffs and Hariyappa, Venkataramiah, (son of Krishnappa) and another Venkataramiah (brother of Venkatadasappa), 6th, 7th and 8th respondents as additional defendants. The Assistant Commissioner (Mr. C. Narayan Rao) and the Deputy Commissioner (Mr. Dorasami Iyer) rejected the suit holding that there were no good grounds for disbelieving the genuineness of the horoscope produced on behalf of Venkatakrishnaiah, that no declaration of forfeiture of huk by the families of Venkanna and Venkatraya had been passed by a competent authority and that there was absolutely no evidence to warrant the allegation that Nittur Amanikere was the self acquired property of Gundappa. On second appeal the Revenue Commissioner has held that the horoscope referred to could not be believed to be that of Venkatakrishniah and that the suit filed in 1895 was therefore time barred. He has accordingly ordered that the arrangements made by the Deputy Commissioner in 1901 in execution of the Order of Government of 1898 be set aside and that the arrangement that existed in 1895 should continue till the next Revision Settlement. Hence the present appeal to Government.

Plaintiff	Defendants
Gundappa	1. Venkatakrishniah 2. Seenappa 3. Venkatadasappa 4. Venkataramaniah by guardian Krishnappa

Decision.

At the Potgi Settlement of 1886-87, the eleven villages in question were grouped into four firkas or charges as shown in para 2 of the facts of the case. The local officers, however, did not give effect to the Potgi Rules. The result was that the shanbhogship of these villages continued to be enjoyed by members of the family according to family arrangements, the groups being altogether different from the Potgi Settlement arrangements. In 1895, the registry stood as per margin of para 2 above.

2. The case came up before Government and formed the subject of Government Order dated the 2nd November 1898. Then Venkatakrishniah (1st appellant) was plaintiff and Seenappa (2nd appellant), Venkataramaniah (5th respondent), and Venkatadasappa (4th respondent) were defendants. Gundappa (1st respondent) was not a party in his own right but represented minor Venkataramaniah (5th respondent) as his guardian. In their Order of 2nd November 1898, Government directed (*a*) the enforcement of the Potgi Rules in regard to grouping of villages to constitute four charges and (*b*) the recognition of Venkatakrishniah's right by assigning to him the smallest of the four Potgi charges. The second part of the Government Order was given effect to by Venkatakrishniah being given group II having a Potgi of Rs. 67-4-0. As to the first part of Government Order, a redistribution of the villages among Seenappa, Venkataramaniah and Venkatadasappa became necessary. In effecting this, the Deputy Commissioner seems to have assigned two groups I and III to Seenappa (continuing with him, his brother Hariyappa, introduced into the case for the 1st time) one group II to Venkatakrishniah, and the IV group to Venkatadasappa and minor Venkataramaniah jointly.

3. In the above arrangement, the Deputy Commissioner ignored the claims of minor Venkataramaniah to a whole firka by himself (as representing his late father Puttanna, which the Government Order of 2nd November 1898 had recognized. Therefore complaint was made to Government on the minor's behalf, but it was rejected by Government Order dated the 17th April 1902. Gundappa who was, jointly with minor Venkataramaniah, holder of five villages in 1895 was also not recognized in the Deputy Commissioner's arrangement. Therefore and as he would be losing some villages thereby, he complained to Government against the Government Order of 2nd November 1898 on the ground that he was not a party to the suit. In Government Order dated the 16th March 1901, he was directed to bring a regular suit if so advised; and in Government Order dated the 20th May 1904, a full investigation of the claim was enjoined. This has now been done and the case has again come up before Government.

4. In this suit the rights of Venkatakrishniah have again been called in question on grounds which were considered when the Government Order of 2nd November 1898, was passed and on no fresh grounds whatever. It is not open to the Revenue Commissioner to go against the Government Order of the 2nd November 1898 and to go behind it and discuss

the age and horoscope of Venkatakrishniah and any question as to whether his suit decided by Government was then time barred, the more especially as these were points which Gundappa could well have and indeed ought to have adduced when he appeared on behalf of minor Venkataramaniah. The opinion of the Revenue Commissioner in regard to the horoscope and in regard to the question of limitation depending on it is moreover opposed to the concurrent finding of both the Courts below him. Nor is it open to the Revenue Commissioner to go behind that Government Order and direct that the shanbhogship of these villages shall be enjoyed according to family arrangements contrary to the Potgi Rules until the next Revision Settlement, when, by the way, there is no guarantee that the existing discordance will not be perpetuated.

5. Government are of opinion that in this case there has been much of needless litigation wasteful of public time and private money. The meaning of the Government Order of 2nd November 1898 was that the constitution of charges under the Potgi Settlement should be respected, and that in an assignment of those charges the registered barawardars of the day should be recognized. The solution of this problem, in other words, the execution of this order, was simple and Government fail to see why one or the other of the two alternative arrangements shown below was not adopted and should not even now be adopted. From remarks which fell from the parties at the hearing on the 13th February 1909, it appears likely that this will be acceptable to all concerned. Seenappa however being the representative of the 1st branch of the family should have the choice between group I and group III and the rest of the arrangement is simple and will follow as a matter of course. There is no good reason for introducing Hariyappa at all and as a matter of fact his claims are merged in those of his brother Seenappa. The distribution above suggested ought to satisfy all parties in the case, while the constitution of the charges under the Potgi Settlement will remain inviolate and the family arrangements will also be respected as far as possible:—

6. In the Deputy Commissioner's report No. 47, dated the 20th July 1899, it was stated that the appointment of Gundappa and (Venkataramaniah's father) Puttanna was made as a *temporary measure*. This is a mistake. It was a tentative or experimental measure as will appear on a reference to the original records of 1880. The re-arrangement of all the barawards connected with the eleven villages in question made in 1880, in consequence of the misconduct of certain holders of office, was ordered as an experimental measure doubtless in view of the impending Land Revenue and Potgi Settlement of the taluk, and the Government Order of 2nd November 1898 required the enforcement of the Potgi Rules and the redistribution of villages among the men constituted barawardars in 1880.

7. Under the circumstances of the case, Government direct in reversal of the order of the Revenue Commissioner that one of the two alternative arrangements suggested in para 5 above should be given effect to and that Seenappa, 2nd appellant, should be given the choice to prefer for himself one of the two groups I and III.

Letter No. 4433—B. & R. 666, dated the 5th February 1909, from the Comptroller, submitting with statistics a Report on the Resource operations in the State during the year 1907-08:—

"I have the honor to submit the Report on the Resource operations in the State and also the statistics connected therewith for the year 1907-08.

Minimum Balances.

2. Statement A accompanying this report shews the actual balance on the 1st of each month in each of the Treasuries of the State as compared with the estimate of minimum balances fixed in 1905. The balances in all months of the year were in excess of not only the estimated minimum but also of the actuals for the corresponding months of the previous year. Even the balance on 1st February, which is usually the lowest, was 3, 98 thousand more than the minimum. This result was due to the fact that at the commencement of the year large reserves were held in the Treasuries in order to meet special demands of the year, such as the extra grant required for the Educational Department, the Veterinary Department and the capital outlay on the 3rd installation of the Cauvery Power Scheme. The payments in connection with some of them were, however, made only towards the close of the year. This accounts for the fact that, while the total balance in the beginning of each month to end of March was uniformly larger than that in the previous year, it shewed an appreciable fall from April, and the balance in June was almost the same as that in the previous year.

Movement of Funds.

3. Transfer of funds was effected as usual mainly by means of specie and currency note remittances. On receipt of the orders of Government sanctioning the revival of the issue of Supply Bills as a means of remittance, a notice was issued during the last quarter of the year under report calling for applications for Supply Bills. The Deputy Commissioners of Districts were also specially addressed with a view to popularise this cheap and safe method of remittance. Absolutely no applications were received even though the arrangement was fully advertised not only in the Government Gazette but also in the leading local vernacular papers. The Deputy Commissioners, Treasury Department, of all districts were therefore asked to report the reasons for the failure of the people to avail themselves of the opportunity afforded them for adopting this method of remittance and also to make such suggestions as are calculated to make the public appreciate the benefits and make the scheme a success. No earnest attempt seems to have been made in the majority of cases to study these causes carefully, and the explanations furnished go to show that the object with which the system of issuing bills was introduced has not been properly understood.

The explanations furnished briefly summarized are to the following effect:—In *Kadur*, private remittances into the district on a large scale are rare; *Tumkur* has not much of external trade; the trade of *Chitaldrug* with Bangalore is not extensive; *Hassan* is not a large manufacturing or agricultural district and consists mostly of petty agriculturists, where produce is sold for cash in local fairs held weekly, and coffee and cardamom, which are the main products of the malnad, are largely exported to the West Coast; the *Bangalore* merchants find it more convenient to remit money to *Mysore* by means of currency notes which can be easily procured; paddy and other produce of *Shimoga* are usually sold from November to April when only Supply Bills would be in demand; and *Kolar* thinks that the limit of Rs. 500 is too high.

Nor are the remedies suggested to the point and consistent with each other, and in some cases they are not even practical. The Deputy Commissioner, Chitaldrug, suggests the issue of bills between District Treasuries, and the districts of Hassan and Mysore want their Treasuries to be made the issuing Treasuries. The Deputy Commissioners of Kolar and Bangalore urge that the limit of Rs. 500 may be reduced to Rs. 100 as remittances over Rs. 100 are very rare. The districts of Hassan and Kolar want the issue of Supply Bills on Taluk Treasuries and not merely on District Treasuries, forgetting the fact that they are at liberty to arrange for the payment being made in any of the Sub-Treasuries in the district when bills are issued on the District Treasury.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Our Resource operations consist mainly in drawing the surplus balances at the District Treasuries to the State Huzur Treasury at Bangalore and the object of issuing Supply Bills is to help the merchants at the head-quarters in remitting their funds to the districts when Government want to move the funds in the opposite direction. The suggestion, therefore, to arrange for issue of bills between District Treasuries and to make the District Treasuries the issuing Treasuries whether they are deficit Treasuries or surplus Treasuries is out of question and does not require any consideration. The Mysore District Treasury, which is always a deficit Treasury, has already been authorised to issue Supply Bills but there has been no appreciable increase in the number of bills applied for. The trade between Mysore and Bangalore is more of export from Mysore to Bangalore and the demand for payment is therefore at Mysore. The reduction of the limit of Rs 500 to Rs. 100 as proposed by the Deputy Commissioners of Bangalore and Kolar is undesirable, as the trouble involved will be out of proportion to the result achieved. Supply Bills are issued only for purposes of resource and the issue of a few small bills will not help the object in view, *viz*, to move towards Head-quarters the large collections made in the districts during the revenue season and also to resource the deficit Treasuries in time of need. If District Officers try to study exactly how the export trade of the country is financed at present and what routes the movement of trade funds takes, and also consult the leading merchants and cultivators in the matter, they may perhaps be able to popularise this method of remittance.

4. Statements B and C affixed to this report exhibit the remittance of specie and currency notes from and to the several District Treasuries as also the net remittance. The inward remittances were, as usual, to the deficit Treasuries of Bangalore and Mysore throughout the year except during the few months of the collection season. Mysore received about 9½ lakhs till January and from February sent out 12 lakhs of which 2,30 was in currency notes. Bangalore received 14 lakhs and sent out 4,64 lakhs from March. The flow of funds was outward in the case of all the other districts except Kadur, which had an inward remittance of 9,77 consisting entirely of specie in exchange for an outward remittance of 19,82 consisting almost entirely of currency notes. The outward remittance was largest in Kolar amounting to 23,09 of which 8,05 was in currency notes; next comes in Kadur with its 19,82 which consisted almost entirely of currency notes. The remittance out of Bangalore was the lowest.

Absorption of Small Coins.

5. Statement D shows the absorption of small silver, nickel and copper or bronze coins. The consumption during the year under report was highest in Kadur, and next in order come Mysore, State Huzur Treasury, Shimoga, Chitaldrug, Hassan and Kolar. In Bangalore and Tumkur the issues were less than the receipts. As compared with the previous years' statistics, the absorption was on the whole less by 76 thousand. The reduction is shared by the majority of the districts as noted below:—

State Huzur Treasury	...	...	—55
Tumkur	...	...	— 9
Shimoga	...	...	—13
Chitaldrug	...	...	—13
Mysore	...	...	—20
Bangalore	...	...	—16
			— 126
Kolar	...	...	5
Kadur	...	...	16
Hassan	...	...	29
			50

Out of the aggregate increase of 50 in the absorption in the Kolar, Kadur and Hassan Districts, 22 represents the amount of 1 anna nickel coins and it is reported that these have been kept back by the people on account of its novelty, this coin having been introduced for the first time during the year. It is not easy to ascertain exactly the causes of the fluctuations in each Treasury, as no attempt appears to have been made in the districts to study those causes. Bangalore alone has attempted to explain the increase of 16 in the balance of small coins at that Treasury and has reported it to be due to the fact that the Municipal, Excise and Stamp receipts are largely paid in small coins and swell the balance of these coins considerably."

Financial (General Finance), dated 13th March 1909.

No. Fl. 4115-24—G. F. 278-08-2, DATED BANGALORE, 13TH MARCH 1909.

ORDER THEREON.—Recorded.

It is a matter for regret that the attempt to issue Supply Bills, made with a view to draw surplus balances from the districts to Bangalore and also to help the merchants at the latter place in making their remittances to the districts, was not successful. The offer to issue bills may, however, be repeated this year also and the result reported for the information of Government. Considering the advantages it offers to trade, the arrangement ought to become popular in course of time.

READ—

Letter No. 5416-198, dated the 6th February 1909, from the District Magistrate of Kolar, bringing to notice a case of irregular surrender of one Peddareddappa *alias* Venkatasami, accused of theft in Mysore Territory.

No. J. 2583-91—Cts. 264-08-2, DATED BANGALORE, 9TH MARCH 1909.

ORDER THEREON.—The facts of the case are as follows:—

On the 8th December 1908, one Peddareddappa *alias* Venkatasami of Maripad in Vayalpad Taluk, Cuddappah District, a cook in the employ of Byparedi of Gortipalli within the limits of Guttapalya Police Station of the Bagepalli Taluk of the Kolar District, committed theft and escaped into British Territory. The Police dafadar of Guttapalya traced the accused to Maripad village and with the aid of the local Police had the house of the said accused searched in the presence of panchayatdars, in the course of which some of the stolen property was recovered. Thereupon the accused was arrested by the British Police constable and produced before the Taluk Magistrate of Vayalpad in due course. The Magistrate granted a remand for eight days for taking the accused to the Bagepalli Taluk Magistrate. The accused was accordingly escorted by Police constables Nos. 384 and 407 of the Vayalpad Station, and handed over to the dafadar of the Guttapalya Station, who produced him before the Bagepalli Taluk Magistrate with the aforesaid order of remand. The latter officer however released the accused on bail on the ground that his surrender was irregular. The District Magistrate in reporting the above incident to Government states that he has directed the Taluk Magistrate of Bagepalli to complete the preliminary enquiry and submit the record for obtaining an extradition warrant against the accused.

2. Government observe that having regard to the decision of the Chief Court referred to in Government Order No. J. 12029-37—J. 1307, dated the 24th March 1898, there was nothing to prevent the Bagepalli Taluk Magistrate from trying the accused produced before him, irrespective of the regularity of his surrender, so long as he had otherwise jurisdiction in the case. He will therefore be directed to proceed with the trial, an application for extradition being unnecessary unless the accused has again proceeded into the British Territory after his release on bail.

The District Magistrate further reports that the action of the Bagepalli Police was also wrong in some respects. He is requested to enquire into the matter and make a report to Government through the Inspector-General of Police.

The action of the Vayalpad Magistrate and Police in having surrendered the accused without an extradition warrant will be brought to the notice of the Honourable the Resident in Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore,

1. Subject No. 45 of the Representative Assembly Proceedings of 1907 and the reply of Government thereto, regarding the fees for searches and the grant of encumbrance certificates in Registration offices and the desirability of withdrawing the rule requiring production of such certificates for a period of 12 years in all cases of sales of immovable property.

2. Letter No. 1833, dated the 11th February 1908, from the Inspector-General of Registration, recommending the adoption in *toto* of the Madras Rules regarding fees for searches in Registration Offices.

3. Letter No. 6677—352, dated the 25th March 1908, from the Registrar of the Chief Court of Mysore, stating that it is proposed to alter rule 4 of the Civil Rules of Practice, dated the 8th March 1880, as follows:—

"In any case in which on account of the large value of the property or for any other sufficient reason, the Judge considers it necessary to do so, he may, before ordering a sale of immovable property, require the party at whose instance the property has been attached, to cause a search to be made in the office of the Sub-Registrar within whose sub-district the property is situated to ascertain whether there are any subsisting encumbrances on the property and such search shall be made for such number of years as the Judge may direct in each case, and a certificate embodying the result of such search granted by the Sub-Registrar shall be produced before the Court."

4. Subject No. 57 of the Representative Assembly Proceedings of 1908 and the reply of Government thereto regarding fees for searching documents.

SUBJECT NO. 57 OF 1908. Registration Fees.

Summary of discussion.—(i) Formerly a fee of one rupee was levied for searching documents in Sub-Registry Offices irrespective of the number of years to which the search related. A fee of one rupee for the first year and four annas for every other year is now levied. The old scale may be revived.

The party may be given the option of searching the registers himself or of having them searched by the Registering Officer, in which case an additional fee not exceeding Re. 1 may be levied.

In cases where the search is made by parties, the Registering Officer may certify that the party was given access to the registers for a sufficient time.

The prescribed printed forms of application may be ordered to be supplied free of charge, and the searching fee reduced to annas 8 for the first year and annas 2 for each succeeding year.

Note.—After much discussion the members expressed themselves in favor of reverting to the old system under which parties searched the registers themselves on the payment of a fixed fee. They agreed to the fee being fixed at Rs. 1-8-0 instead of Re. 1 as before.

(ii) The rule of the Chief Court requiring search certificates for a period of 12 years may be withdrawn.

Reply of Government.—(i) Orders will be passed on the lines agreed to by the members.

(ii) The Chief Court intend to modify the rule to some extent.

No. J. 2756-65—REGIS. 27-07-6, DATED BANGALORE, 18TH MARCH 1909.

ORDER THEREON.—Under the rules in force regarding searches and inspections in Registration Offices, the fee for search or inspection is one rupee for each entry or document for the first year in the books of which search is made and four annas for each entry or document for every other year in the books of which search is continued. It has been represented to Government that this scale of fees is very high and causes a great deal of hardship especially to attaching creditors who have to produce, prior to obtaining an order for sale of immovable property, encumbrance certificates from the Registration Offices for a period of 12 years. The Inspector-General of Registration agrees that it is a hardship and suggests the introduction of the rules regarding searches as obtaining in the Madras Presidency, to mitigate the severity of the present rules.

2. Government while agreeing with the Inspector-General of Registration that the present rules are unduly severe in certain cases, consider that the Madras Rules are not quite suitable. The Members of the Representative Assembly after much discussion have expressed themselves in favor of reverting to the old system under which parties searched the registers themselves on the payment of a fixed fee and have also agreed that the fee may be fixed at a rupee and a half instead of one rupee as before. The decision arrived at in the Representative Assembly of 1908, will be given effect to and the following Notifiction will accordingly be published in the official Gazette.

Judicial and Legislative (Registration), dated 18th March 1909.

Notification No. J. 2747—Regis. 27-07-5, dated Bangalore, the 17th March 1909.

Under Section 78 of the Mysore Registration, Regulation, I of 1903, the Government of His Highness the Maharaja of Mysore, are pleased to direct the substitution with effect from 1st July 1909, of the following fee for searches and inspections in Registration offices, instead of the scale prescribed in their Notification No. J. 1709 —Regis. 11-06-6, dated the 20th December 1906:—

"VIII. Fee for search or inspection, Rs. 1-8-0."

The table of fees published in Notification No. 131, dated the 12th August 1878, shall be amended accordingly.

3. As regards the second prayer of the Representative Members embodied in the subject read above, Government approve of the proposal of the Chief Court to alter Rule 4 of the Civil Rules of Practice No. 28, dated the 8th March 1880, in the manner suggested by it.

ORDER.—In continuation of Government Proceedings No. 7895-904—L. B. 159-07-12, dated 13th February 1909, abolishing the practice of taking thumb impressions of patients resorting to Vaidyasalas, Government direct that the following slight alterations be made in the daily Sick Patient Register maintained therein.

(*a*) The heading of column I of the register shall be changed from " General Number " to " Ticket No. of Fresh Admission. "

(*b*) Next to column 1 a new column No. 2 with the heading " Ticket No. of old case " for noting the numbers on the tickets of patients who resort for repetition of treatment shall be opened, the numbers of the existing subsequent columns being suitably altered. Government further direct that at the end of the entries for the day a line in red ink be drawn across the register and the date of the next day be prominently entered before commencing further entries on the subsequent day.

READ—

Letter No. 81, dated the 6th January 1909, from the Chief Engineer of Mysore, forwarding for orders, the original correspondence ending with Superintending Engineer's No. 5745 of the 22nd ultimo in the matter of the claim put forward by the Bangalore City Municipality for Municipal taxes on the marginally noted Government buildings in the City.

1 Buildings used as free quarters in the compound of the Lunatic Asylum.
2. Hospital Assistant's quarters in the Eye-Infirmary.
3 Lady Surgeon's quarters in the Maternity.
4 Residential quarters in the compound of the Victoria Hospital
5 Do Central Jail
6 Quarters for the Manager, Government Press
7 Lal Bagh Superintendent's quarters.
8 Store-keeper's quarters in the Executive Engineer's Office.

No. 8904-6—Ml. 276-08-2, dated Bangalore, 13th March 1909.

Order thereon.—The question for orders is whether the eight buildings referred to, used as they are for residential purposes, are not liable to Municipal taxes. The Municipality demand the taxes as properly payable and the Comptroller, Public Works and Railway Branch, considers that the demand is improper under Government Order No. 5430-70—Ml. 413-06-4, dated the 10th December 1907.

2. The Municipal claim for the years prior to January 1907 is governed by the Municipal Regulation of 1871. Under Section 65 thereof, as elucidated in the Government order cited above, buildings used as public Government offices and out-houses forming a small portion of those buildings were exempted from payment of house tax. It was also a well understood practice to exempt religious and charitable institutions from the said tax. The other Government buildings used mainly for residential purposes were liable to the tax under Government Order No. 1933-6—L. F. 100-95, dated the 15th May 1903. The buildings under reference are evidently of this latter class and are therefore liable to Municipal tax.

3. Under the New Municipal Regulation, however, as has been clearly explained in the said Government order of the 10th December 1907, Government buildings used solely for public purposes and not for purposes of profit, enjoy exemption from the tax and the Municipality cannot therefore claim taxes on the aforesaid buildings for the years subsequent to 1st January 1907.

4. The Chief Engineer is requested to adjust the Municipal claim in the light of the foregoing remarks.

Letter No. G. 373, dated the 8—14th December 1908, from the Senior Surgeon, stating with reference to para 4 of Government Proceedings No. 6828-9—Med. 51-05-11, dated the 4th February 1907, that the procedure authorized in para 7 of the said Proceedings, by which the District Medical and Sanitary Officers are required to send monthly reports to the Senior Surgeon, of casual or other leave which does not entail acting arrangements involving additional cost to Government, granted by them to medical subordinates of and below the grade of Hospital Assistants, leaves the Senior Surgeon in ignorance of what is going on in the districts for possibly 5 days at a time and suggesting that (1) para 7 of the Government Order dated the 4th February 1907 be so modified as to require District Medical and Sanitary Officers to report at once to the Senior Surgeon all cases of leave granted by them and the arrangements made for the conduct of the duties of the medical subordinate concerned to whom the leave is granted and (2) the District Medical and Sanitary Officers be empowered also to grant to the Gazetted Medical Officers serving under them, casual leave up to 3 days in cases of emergency, all such leave granted being at once reported to the Senior Surgeon's Office.

No. 8436-8—MED. 136-08-2, DATED BANGALORE, 1ST MARCH 1909.

ORDER THEREON.—In modification of para 7 of Government Order dated 4th February 1907, Government are pleased to direct that all cases of leave granted by the District Medical and Sanitary Officers to medical subordinates of and below the grade of Hospital Assistants be reported at once to the Senior Surgeon with information as to the arrangements made during the period of the leave granted by them.

2. In regard to the Senior Surgeon's suggestion regarding the grant of casual leave to Gazetted Medical Officers, Government see no reason for any change in the orders conveyed in Government Proceedings No. Fl. 3444-89—Gen. Fin. 25-06, dated the 12th November 1906, empowering Heads of Offices with certain exceptions to sanction casual leave to the officers subordinate to them. No. 9387-9—Med. 30-08-15, dated Bangalore, 29th March 1909.

Order.—The attention of Government has been called to the practice of publishing in the *Mysore Gazette*, notifications regarding the confirmation of Hospital Assistants and their promotion from one class to another. Government consider it unnecessary to publish in the official Gazette notifications in regard to these matters and accordingly direct that the practice referred to be discontinued.

Letter No. 6843—423, dated the 13th February 1909, from the Inspector-General of Education in Mysore.

No. 8828—EDN. 276-08-2, DATED BANGALORE, 11TH MARCH 1909.

ORDER THEREON.—Under Government Order contained in Proceedings No. 9876-80—Edn. 324-06-9, dated the 30th March 1908, the optional subjects for the Intermediate Examination to be taught in the Maharani's College, Mysore, are those comprised in group IV, *viz.*, Ancient or Modern History, Sanskrit and Kanarese.

2. The Inspector-General of Education reports in the letter read above that it is represented by Miss Palethrope, Superintendent of the Maharani's College, that the pupils in the High School Department of the College do not take up Sanskrit for the Matriculation Examination and that consequently it is impossible for them to finish the Sanskrit Course for the Intermediate Examination within two years after passing the Matriculation Examination. The Inspector-General therefore proposes that group III, *viz.*, Ancient History, Modern History and Logic may be substitued for group IV in the Maharani's College.

The proposal of the Inspector-General is sanctioned. He is requested to report the arrangements he would make for instruction in these subjects.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Education), dated 13th March 1909.

Letter No. 2920—193, dated the 27th September 1908, from the Inspector-General of Education in Mysore, submitting copy of letter No. 3143, dated the 19th September 1908, from the Chief Electrical Engineer in regard to the grant of scholarships for the study of Electrical Engineering.

No. 3143 from the Chief Electrical Engineer.

In accordance with your verbal request, I am pleased to send you the following memoranda on Education of young men for such work as is handled by this Department.

In the first place, I would like to say that up to now so far as I am able to judge, the start has been made from the wrong end, that is, young men who have not demonstrated a practical mechanical tendency or that they are willing to work hard at manual labour for a period of years, are selected and given courses, trusting that they will prove practical afterwards.

It would, I think, be very much better to select only such as really possess known qualifications, so that the theory when studied, may receive full comprehension and practical application.

The most suitable man is one who has received a good education and served in a well recognized mechanical workshop such as Parambur, as it should always be remembered that no amount of study will ever really fit a man to operate a plant such as Government has at the Cauvery and that the work done in the Electrical Department requires, as great a mechanical as Electrical knowledge.

Men who are working in either Electrical or Mechanical, will find courses such as are given by the International Correspondence Schools of marked assistance, if gone into seriously.

Men who have proved themselves suitable on the work here, would be much benefited by a tour in either Europe or America or both, enabling them to see other methods of construction and general working.

It would also, I think, be very sound to select an occasional man from the local staff for a Government Studentship

An arrangement can, I think, be made with the new Institute in Bangalore to give local men on the work special courses in Electrical Engineering.

I do not believe that the courses at the Victoria Jubilee Institute are of much value, as their standard of requirement is too low.

Finally, I would say that I believe the example of the European in India has often been exceedingly bad and has taught Natives that work is not compatible with social standing. If an example is set by hard working experts, I believe that good local men can be turned out, and feel that it is most essential that the greatest of care should be exerted in providing for their education and early training and also in affording the best of example and precept.

Correspondence ending with letter No. 8158—516, dated the 16th March 1909, from the Inspector-General of Education in Mysore, submitting proposals for the opening of twenty-six new Village Elementary Schools at a cost of Rs. 3,648 per annum out of the provision of Rs. 3,656 sanctioned for the purpose in Government Order No. 118-9—Edn. 249-07-5, dated the 6th July 1908, and included in the Village School Fund Budget for the current year.

No. 9490-1—EDN. 341-08-2, DATED BANGALORE, 31ST MARCH 1909.

ORDER THEREON.—The opening of the twenty-six Village Elementary Schools mentioned in the statement appended to the Inspector-General's letter read above, at a total cost of Rs. 304 per mensem, is sanctioned. The Inspector-General is requested to have the schools opened at a very early date, which should be the more practicable, because buildings for twenty-three out of twenty-six schools proposed are stated to be ready and only three are promised, which there should be no difficulty in securing.

2. The following is an analysis of the twenty-six schools above sanctioned :—

Subject No. 248 of the Proceedings of the Representative Assembly of 1908, in regard to the qualifications of members for election to the Assembly brought forward by Mr. S. R. Balakrishna Rao of the Shimoga Municipality.

No. G. 5082-9—G. R. 14-08-1, DATED BANGALORE, 9TH MARCH 1909.

ORDER THEREON.—The representations made are (1) that to secure the representation of the learned professions in the Assembly one-third of the total number of members may be reserved for persons other than landed proprietors and (2) that property qualifications may be dispensed with in the case of graduates of ten years' standing and of persons practising the learned professions.

2. Government have fully considered the matter and are of opinion that it is not desirable to make any special reservation of seats in the Representative Assembly in favour of any particular class or profession, as urged by the Representative member; nor do they see any sufficient reason to relax the rule about property qualifications in the case of graduates and persons practising the learned professions.

The member that brought the subject forward will be informed accordingly.

Correspondence ending with letter No. 318, dated 4th December 1908, from the Superintendent, Government Gardens, suggesting that all minor repairs to structures, etc., costing Rs. 50 and less and all original works coming under new paths, structures, temporary or movable, and minor improvements, costing Rs. 50 and less, may be executed by the Gardens Department and paid for out of the provision in the budget of that Department; while all structural repairs costing more than Rs. 50 and the construction of all structures of a fixed and permanent nature may be executed by the Public Works Department and paid for out of the provision in the budget of that Department.

2. Letter No. 8275, dated 26th December 1908, from the Chief Engineer of Mysore, expressing his acceptance of the arrangement proposed by the Superintendent, Government Gardens.

No. G. 4978-80—G. M. 32-08-20, DATED BANGALORE, 1ST MARCH 1909.

ORDER THEREON.—The arrangement proposed by the Superintendent, Government Gardens, is approved as it will afford scope to the Gardens Department taking timely action in the matter of minor repairs and to minimise the number of requisitions to the Public Works Department for large repairs.

2. It should be a distinct understanding that the arrangement involves no addition to the budget of either the Public Works or the Gardens Department.

Letter No. 586, dated the 17th February 1909, from the Superintendent of Stationery, stating that applications for supply of stationery unsupported by the previous sanction of Government, are being received from newly created offices and that this leads to unnecessary correspondence, and suggesting that whenever stationery is required to be supplied to such offices, the instructions of Government in the matter may be invariably sent to him and requesting permission to his complying with the requisitions of the Chief Commandant and the Deputy Commissioner of the Chitaldrug District for supply of stationery to the Superintendent, Military Stores, and to the Assistant Engineer attached to the Chitaldrug District on account of the present distress respectively.

No. G. 5252-90—G. M. 37-08-53, DATED BANGALORE, 18TH MARCH 1909.

ORDER THEREON.—All requisitions for the supply of stationery to newly created offices should receive the sanction of Government in the General Department. Indents from such offices for supply of stationery not supported by such sanction will not be complied with by the Superintendent of Stationery.

2. The stationery required for the Assistant Engineer temporarily attached to the Chitaldrug District may be supplied for use during the current official year.

3. The Chief Commandant is requested to issue the stationery required for the use of the Military Stores from his own office indent, drawing the supply if need be from the Stationery Depot on a supplemental indent.

Letter, dated the 25th November 1908, from L. Ramachandra Rao of the General Agency, Mysore, applying for permission under Section 2 of the Mysore Newspapers Regulation, III of 1908, to start an Anglo-Kannada weekly newspaper called the *Mysore Patriot*.

No. G. 5569-77—G. M. 87-08-159, DATED BANGALORE, 29TH MARCH 1909.

ORDER THEREON.—From enquiries made by them, Government learn that the applicant L. Ramachandra Rao is a young man of about twenty years of age and that he does not possess the qualifications, literary and other, needed for editing and conducting a respectable newspaper. There is also reason to think that the applicant is a mere name-lender and that he has been put forward as the ostensible editor by persons who, for various reasons, wish to keep their connection with the enterprise in the background. Government consider that in such cases as these, in which irresponsible youths come forward as editors and publishers of newspapers, probably merely as a blind, the discretion to grant or refuse permission conferred by the Regulation should be exercised. The permission asked for will accordingly be refused.

Annual Report of the Mysore Military Forces for 1907-08.

NO. MILY. 821—57-08-3, DATED BANGALORE, 17TH MARCH 1909.

ORDER THEREON.—Government observe that the report is on the whole satisfactory.

2. The expenditure under all branches of the Military Service amounted to Rs. 11,63,035 against Rs. 12,14,535 during the previous year.

3. The strength of the Cavalry Regiments was fairly well maintained. That of the Transport Corps, however, was more than 14 per cent short of the sanctioned establishment.

	Establishment	Vacancies
Cavalry	1 095	8
Transport	480	69

4. Detachments from the Imperial Service Lancers and the Transport Corps took part in the Brigade Manœuvres held in January and February 1908 and a squadron and half of the Local Service Regiment was also employed in connection with the Royal Artillery Practice Camp at Beerasandra about the same period of the year.

5. Several Officers and Non-Commissioned Officers of the Imperial Service Regiment were trained in—

Musketry,
Signalling,
Field-sketching,
Pioneer work and
Gymnastics and other exercises

during the year, and the Regiment deserves credit for the success it achieved in the South Indian Rifle Association, the Hyderabad Rifle Meeting and at the Central Assault-at-Arms at Bangalore.

6. The Horse and Mule Chanda Funds of the Cavalry Regiments were in a satisfactory condition during the year.

7. Government note with regret the occurrence of anthrax among the horses of the detachment of the Imperial Service Lancers ordered to Mysore in June 1908, and the outbreak of cholera among the men of the same detachment on their return journey, resulting in five fatal cases.

Petitions Nos. 226 and 730 A, dated 5th November 1908 and 30th January 1909, respectively, from Narasimhasetty of Arsikere offering for deposit at 4 per cent interest an endowment for the benefit of the Eswara temple newly constructed by him at Arsikere and requesting that Government may also sanction a grant from Muzrai Funds.

Memo, dated 4th February 1909, by the Muzrai Superintendent.

No. 1254-6—MUZ. F. 397-08-8, DATED BANGALORE, 5TH MARCH 1909.

ORDER THEREON.—Narasimhasetty of Arsikere who has newly constructed an Eswara temple at the place, offered in his first petition to endow this institution with Rs. 3,000 and requested Government to receive this deposit and arrange for the conduct of worship in this temple supplementing the income by a Government grant also. The Comptroller and Financial Secretary who was consulted is of opinion that the deposit may be accepted at 4 per cent interest if funds sufficient for all expenditure in connection with the temple including periodical repairs, etc., are deposited and if the management is left entirely to Government.

2. The Muzrai Superintendent, after inspecting the temple on the 29th January 1909, and explaining facts to Narasimhasetty reports that the temple has been substantially built with stone, that at the time of inspection the prescribed ceremonies for the consecration of the idol were being performed on a liberal scale and that Narasimhasetty deserves every encouragement. Narasimhasetty in his second petition, dated 30th January 1909 has offered to deposit a further sum of Rs. 2,000 for the annual repairs of the temple out of the interest on this amount, and requests that he, during his lifetime, and after him, his descendants may be appointed sole Dharmadarsis under Government so long as they manage the institution efficiently, Government being at liberty to make any other arrangement when the management becomes unsatisfactory.

3. In these circumstances, Government are pleased to accept the deposit of Rs. 5,000 by Narasimhasetty at 4 per cent per annum. The Deputy Commissioner, Hassan District, will get the necessary document executed by Narasimhasetty in accordance with Rule IV of Government Notification No. Fl. 4007—Gen. Fin. 184-06, dated 12th February 1908, and will also after consulting the donor submit for the sanction of Government a scale of expenditure in this institution.

4. The temple will be taken under Government management as a Muzrai institution and the donor Narasimhasetty and after his lifetime one or more of his descendants will be appointed sole Dharmadarsis of the institution so long as they manage the institution efficiently and in accordance with the orders and instructions of Government, if any, issued from time to time.

2. The Deputy Commissioner reports that Syed Sha Ahmed Shattari, Sajjada, Makkandar of Darga, died at Madras on the 27th June 1907, leaving a minor son named Syed Sha Gulam Ali Sahib, aged seven years, that necessary arrrangements have been made for the education of the boy under the supervision of the Education Department in accordance with Government Proceedings No. 4646-8—Edn. 59-07-08, dated 19th November 1907, and that the major portion of the community have no objection to the said minor being appointed Makkandar of the Darga in the place of his deceased father. He therefore recommends that his succession may be recognized and, that during his minority, his mother and guardian may be allowed to manage the affairs of the institution with the assistance of the two persons mentioned by her who are stated to be reliable and respectable. He further reports that summonses were issued to the Jahgirdar of Ammapoliam for his appearance before him to substantiate his claims to the post, but that neither the summonses were returned nor did the party appear for examination.

3. Under the foregoing circumstances, the Government are pleased to recognize the succession of the minor Syed Sha Gulam Ali Sahib as Makkandar of the Attavulla Sha Darga, and to approve of the recommendation made by the

(1) Letter No. 2582, dated the 23rd December 1908, from the Sanitary Commissioner in Mysore, forwarding for orders a project amounting to Rs. 66,150 for laying out the extensions proposed for the Shimoga Town, together with a copy of the resolution of the Central Sanitary Board on the subject

(2) Letter No. 2580 of the same date from the same officer, forwarding another project amounting to Rs. 65,592 for the water-supply to the same town, together with the resolution of the Central Sanitary Board on the subject.

No. 354-61—2275-82, DATED BANGALORE, 24TH MARCH 1909.

ORDER THEREON.—The question of improving the sanitation of the town of Shimoga has been long under consideration, and, with a view to arrive at a decision on this important matter, the Dewan held a conference at Shimoga on the 27th September 1907 at which the Sanitary Commissioner, the Deputy Commissioner, the Sanitary Engineer and the leading inhabitants of Shimoga were present. It was then considered that it was impracticable to materially improve the sanitation of the old town and that the best course was to open out extensions towards the high ground away from the river, so that, by affording facilities to the people to resort to the extensions, the old town might eventually be abandoned. Orders were accordingly issued for the preparation of the necessary plans and estimates.

2. In accordance with these orders, two projects have been prepared, *viz.*, one for the laying out of the new extensions and the other for water-supply to the old town and the proposed extensions; and Government are pleased to sanction these projects for Rs. 66,150 and Rs. 65,592, respectively. The works will be carried out gradually as funds are available. They may however be started at once, as there is provision for them in the current year's Public Works Budget in which Rs. 10,000 and 20,000 have been allotted, respectively, for these works.

3. The old town is ultimately to be abandoned and therefore it is not proposed to have any drainage scheme for it; and as far as the new extensions are concerned, there is no immediate necessity for considering this question in its entirety at present. The configuration of the country is such that simple surface drains to carry off the storm water and the water from the hydrants to a suitable outfall in the paddy fields below, are all that are required for the present as stated by the Central Sanitary Board, and no elaborate drainage scheme is necessary.

4. The Central Sanitary Board recommend that in the interests of sanitation, water should be supplied in only a very limited manner to the old town, so that the inhabitants may be induced to shift to the healthy extension sites. This recommendation is approved by Government in view of the ultimate abandonment of the old town.

5. In the case of laying out the extensions, the entire cost will be borne by Government; and as regards the water-supply project, half the cost will be given by Government as a grant-in-aid and the other half will be advanced as a loan carrying interest at 4 per cent. The Deputy Commissioner, Shimoga District, will take the necessary steps, for obtaining the necessary agreement from the Shimoga Town Municipality for the repayment of the loan with the interest in due time.

(1) Report dated 8th February 1909, by Mr. R. Bocquet, Inspector of Mines in Mysore, on a fatal accident, which occurred at Walker's Shaft, Tank Block, on the night of the 21st January 1909 in which 5 persons lost their lives owing to inhaling poisonous gas.

(2) Remarks of the Chief Inspector of Mines in Mysore on the abovementioned report.

No. 2229-30, DATED BANGALORE, 3RD MARCH 1909.

ORDER THEREON.—Early in the morning of the 21st of January 1909, a fire started at some considerable depth below ground in the neighbourhood of Kennedy's Shaft, Nundydroog Mine. Fortunately all the men working in the mine were got out without loss. It was then decided to block up the various shafts in the mine so as to prevent, as much as possible, the access of air to the fire. Amongst other outlets from the mine are certain workings connected with South Shaft and Walker's Shaft on the adjoining Tank Block and on the evening of the 21st, a party of men in charge of Timberman, J. Smith, were sent to block up the entrances to these two shafts. About 8-30 P. M. Captain May, Chief Mine Agent, went to Tank Block to inspect the progress of the work. He first visited Walker's Shaft and not finding the men there he went to South Shaft where he found Smith making preparations for covering the shaft. Smith went down to the bottom of the first ladder and examined the shaft, which is downcast, and Captain May instructed him not to go into the hoisting compartment until he had a rope. Captain May then left taking a man with him to fetch a rope and before leaving gave Smith instructions to block up Walker's Shaft from the outside. There is a large port, about 20 feet below the collar, leading into the side of the shaft through which the pump rod passes. This was to be blocked up and then the openings on the top of the shaft were to be covered over. Smith and his men successfully covered over South Shaft at the bottom of the first ladder and then proceeded to Walker's Shaft which he decided to block by going down a few feet below the side port instead of blocking it from the outside as instructed. There is some doubt as to what happened, but the most probable version appears to be that Smith sent five men down the shaft to the bottom of the 2nd ladder some 25 to 30 feet from surface to cover the shaft. The men sent down were two Europeans, *viz.*, S. Allsopp and Midali Luigi and three natives, *viz.*, Kuppuswami, B. Maury and U. Maury. After some planks had been sent down by rope, Kuppuswami began to feel ill and climbed up followed by Midali. Before reaching the top Kuppuswami became unconscious but was supported by Midali and pulled out at the top by Smith. The effort cost Midali his life as he fell back to the bottom of the first ladder. Smith appears to have gone down at once to help Midali and shortly afterwards called to Cumines (a pipe fitter) to bring a light. The latter did so and gave Smith his hand to help him up the ladder. Midali caught on to Smith and both broke away from Cumines who was pulled out in a dazed condition by the coolies on surface. Allsopp and the two Maurys appear to have remained at the bottom of the second ladder and died there.

2. Assistance soon arrived and Mazza Luigi (father of Midali) with several others went down with ropes on and recovered the bodies of Smith and Midali. The Medical Officers who had already been summoned did all they could in the way of artificial respiration but without avail.

3. The bodies of Allsopp and U. Maury were not recovered for three days and were found at the bottom of the 2nd ladder and the body of B. Maury has not yet been recovered as he appears to have fallen further down the shaft.

4. In his remarks on the accident the Chief Inspector of Mines discusses the question of the responsibility of the Superintendent or the Chief Mine Agent in sending men to carry out this work under the charge of a Timberman and unaccompanied by a responsible officer. The work was under the immediate charge of Captain May, the Chief Underground Agent, who visited the men while they

Geological, dated 3rd March 1909.

were engaged in closing South Shaft and after inspecting Walker's Shaft gave Smith clear instructions as to what he was to do, after which he returned home.

5. There is no doubt that, had Captain May's instructions been followed, there would have been no loss of life and the disaster must be attributed to the fact that Smith exceeded his instructions and attempted to close Walker's Shaft in what he no doubt considered to be a more effective and expeditious way without realizing the risks involved. The Chief Inspector of Mines points out that Smith had had experience of the evil effects of noxious gases on more than one occasion and should have proved a suitable person to be put in charge of such work. The Chief Inspector of Mines also suggests that in all probability, Captain May did not appreciate at all fully the dangers involved from the presence of harmful gases or from disobedience to his instructions through zeal or ignorance and consequently did not himself remain with the working party and did not even issue explicit instructions that the shaft was on no account to be entered.

6. There is much justice in these remarks, especially in view of the fact that fires are happily of rare occurrence in the Kolar Mines and the dangers attending them are not matters of common experience and Government are prepared in the present instance to exonerate the Superintendent and his officers from any intentional or careless laxness. On the other hand the Superintendent and the superior officers of a mine have responsibilities in regard to the safety of their men which they cannot divest themselves of and which demand that they should fully discount all possible dangers and all the more when the danger is of an unusual character.

7. In all such cases it is very necessary that the Superintendent should issue clear and definite instructions and should take definite steps to ensure those instructions being carried out and in the present case it is obvious from the result either that the instructions were not sufficiently precise or that the necessary authority to ensure their being properly carried out was wanting.

8. Government hope that the serious object lesson provided by this regretable incident will not be forgotten and that the experience so dearly bought will be utilized to discount danger and avert disasters in the future.

Memorial No. 128 (undated) from Sir P. N. Krishna Murti, K. C. I. E., Jahgirdar of Yelandur, praying for the grant to him of mineral rights in the Nachenahalli Inam village in Mysore Taluk, of which village he and his brother are the proprietors.

2. Memorial dated 29th October 1907, from Mr. M. Devaraj Urs, Inamdar of Kadakola and a few other villages in the Mysore Taluk, praying that he may be allowed to participate in the Royalty levied by Government on chrome ore mined in his inam village under the authority of Prospecting Licenses granted by the Government over his inam village.

No. 2349-54, DATED BANGALORE, 18TH MARCH 1909.

ORDER THEREON.—The Memorials read above have been duly considered by Government and the Government are of opinion that, as the period of five years allowed under Section 38 of the Mysore Land Revenue Code for preferring claims to mineral rights in inam villages expired in November 1893, it is out of the question now to enquire into or recognize such claims which were extinguished by operation of law fifteen years ago.

2. The claims of Sir P. N. Krishna Murti, K. C. I. E., Jahgirdar of Yelandur, and of Mr. M. Devaraj Urs, Inamdar of Kadakola, must accordingly be rejected.

No. 2375-6, DATED BANGALORE, 20TH MARCH 1909.

ORDER THEREON.—It is observed from the reports of the Inspectors of Mines that the accident was due, not to an air blast as at first reported, but to boring into a hole containing blasting gelatine and that in connection with the blasting operations that were carried on at the time there were several breaches of the rules under the Mines Regulation for which the Italian Contractor in charge of the work, his assistant and two native blasters were considered to be responsible and that all these persons have been ordered by the Chief Inspector of Mines to be prosecuted.
